

# Our Livestock Industry and Its After-The-War Scope

What are the possibilities in permanent trade as a result of our greater production campaign? Every business man in Canada is interested in bigger national business, otherwise our general trade.

The answer must lie in the realm of livestock. So far even wide-awake Canadians in the East have little realized the possibilities of our farm animal industry. War has shown us we only touch the fringe as yet.

The Canada Food Board, at the close of 1918, made a special inquiry as to the depletion of farm stock in European countries which were likely to become customers for our products. Taken in conjunction with Canadian export trade in pre-war years and the large increases made during the war in the sale of our farm products, that inquiry revealed a vast field for development.
