

SEAFOAM ELECTRIC

ITS ADAPTABILITY

There is no combination power washer and wringer on the market that adapts itself to such varied conditions in the home. Whether you are in the city or on a farm, you can use your Seafoam. It is designed to be operated by gas, gasoline, steam engine, electric or wind mill power. Full information on request.

MADE IN CANADA.

Boo Spavin

Cure the lameness and remove the bunch without scarring the horse the blemish came.

FLEMING'S SPAVIN CURE (Liquid) is a special remedy for soft and semi-solid bladders—Bog Spavin, Thoroughpin, Splint, Curb, Capped Hock, etc. It is neither a liniment nor a simple blister, but a remedy unlike any other—doesn't irritate and can't be imitated. Easy to use, only a little required, and your money back if it ever fails.

Fleming's Vest-Pocket Veterinary Adviser describes and illustrates all kinds of blemishes, and gives you the information you ought to have before ordering or buying any kind of a remedy. Mailed free if you write.

Aid to Agricultural Colleges and Schools.

The grants under The Agricultural Instruction Act, being supplemental to those from Provincial and other sources, make many things possible that otherwise would be considered impracticable by reason of the expense involved. In particular are they valuable in the prosecution of the higher education in agriculture. By the help of these grants, not only are agricultural colleges and schools made more efficient in equipment, but it is made possible to pay men of first-class information and experience salaries becoming to their station. Further, graduates who have passed with honors, and obtained degrees in our own colleges and universities, are induced to stay in their own country rather than to go abroad in search of remuneration to which their ability entitles them. Indeed, several good men have already been repatriated, and have accepted lucrative engagements in the land of their birth. How far the funds are being used in this direction is indicated by the following appropriations made from their allotments for 1915-16 by the different Provinces immediately for schools and colleges, apart from extension work, short courses, demonstrations, etc.:

Prince Edward Island.....	\$10,050
Nova Scotia.....	27,500
New Brunswick.....	16,500
Quebec.....	60,000
Ontario.....	93,813
Saskatchewan.....	22,800
Alberta.....	38,000

Manitoba and British Columbia apply portions of the fund in a similar way, but through the public, normal and high schools, and thus the grants appear under another heading than agricultural schools and agricultural colleges.

Gossip.

BRAMPTON JERSEYS.

The 300 head that now make up the Canadian champion Jersey herd of B. H. Bull & Son, of Brampton, Ont., are certainly good to look upon. Whether it was exceptionally good judgment, or simply luck, that prompted the Messrs. Bull to purchase Bright Prince (imp.) as chief sire in service we do not know, but it was certainly a most fortunate purchase. He is not only a sire of showing calibre, but a sire of remarkable producing ability. Here are a few of his daughters sired on the Island and imported by the Messrs. Bull: Osaba (imp.), at four years, made 10,009 lbs. milk and 478 lbs. butter-fat; Brampton Bright Kathleen (imp.), junior two-year-old, made 9,295 lbs. milk and 442 lbs. of butter-fat; Brampton Bright Betty (imp.), three years old, made 9,709 lbs. milk and 550 lbs. butter-fat; Brampton Bright Princess (imp.), junior two-year-old, made 7,714 lbs. milk and 395 lbs. butter-fat; Bright Draconis (imp.) last year, as a four-year-old, won the breed's dairy test at Guelph, with the highest test ever made by a Jersey cow. Her yearly milk was 11,951 lbs., and one day's milk 55 lbs; butter-fat test, 5.02 per cent. The Canadian-bred daughters of this bull are just now coming to milk and give great promise. On his daughters is being used the three-times Toronto champion, Sultan's Rolla (imp.). A still higher standard of show-ring merit must result from this cross. Among the younger things are 125 heifers under one year of age. Certainly the best lot ever seen in these famous Jersey stables. Among the dozens of young bulls are a number imported in dam, a number of others are sons of Bright Prince (imp.), and a lot of Official Record dams. The Messrs. Bull report 1915 as a record year for sales, and they intend making another importation in the spring.

Finding a lady reading "Twelfth Night," a facetious doctor asked, "When Shakespeare wrote about 'Patience on a monument,' did he mean doctors' patients?" "No," said the lady, "you find them under the monuments, not on them."

Schoolmistress—"Well, Freddie, dear, what did you learn yesterday?"
New Boy (after deep thought)—"You ought to know—you taught me."

Hardwood Floors for Farm Houses

If your house has been up for years, that is no reason why you should not have the modern conveniences. Carpets were formerly the only way of covering softwood floors, but they have now given way to the simple, bright Hardwood Floors, which can be put in the old house as easily as in the new one. Any man handy with a hammer can lay them.

Why not put in Maple, Birch or Oak Floors during the quiet season—have the house bright and cheery before spring. There'll be no further house cleaning time—a clean house all the year around.

Costs less than carpet all laid and finished in any farm house any where in Canada. May we prove it?

Write for "BEAVER BRAND" Hardwood Flooring Booklet, A-1.
