### NEW ADVERTISEMENTS.

#### ADVERTISING RATES.

The regular rate for ordinary advertisements is 25c. per line, nonpareil, or \$3 per inch. No advertisement inserted for less than \$1. Special contracts for definite time and space made on application. Advertisements unaccompanied by specific instructions inserted until ordered out, and charged at regular rates. The FARMER'S ADVOCATE is the unrivalled advertising medium to reach the farmers of Canada, exceeding in circulation the combined issues of all the other agricultural publications in the Dominion. Send for an advertising circular and an estimate.

#### SPECIAL NOTICE.

THE FARMER'S ADVOCATE refuses hundreds of dollars offered for advertisements suspected of being of a swindling character. Nevertheless, we cannot undertake to relieve our readers from the need of exercising common prudence on their own behalf. They must judge for themselves whether the goods advertised can, in the nature of things, be furnished for the price asked. They will find it a good rule to be careful about extraordinary bargains, and they can always find safety in doubtful cases by paying for goods only upon their delivery.

## COGENT REASONS WHY

—THE—

# CHATHAM

# WAGON

Adopted by the Government of the Dominion of Canada as the STANDARD WAGON, should command your preference:

The intrinsic cost and value of it is at least \$10 more than any other wagon made in Canada, and any unprejudiced practical man will tell you so, and the thousands who now have them in use say so, because it is not only made from the best, carefully selected and thoroughly seasoned timber and best of iron, but the Skeins used, made only by us, are superior to any skeins made or used in Canada, and are constructed specially to receive our Climax Truss Rod, which doubles the strength of the axle; the boxing of the hubs are pressed, not wedged in; a guarantee for a year accompanies each wagon, and notwithstanding this additional cost and superiority, the Chatham Wagon can be purchased at no greater price than is charged for inferior wagons. Bear in mind it is the running gear that carries the load, and no amount of fancy painting on the box will make an easy running and great carrier of a poorly constructed wagon.

Liberal Terms to Parties buying in Carload Lots. Correspondence solicited
