

TELEGRAPHIC.

AFGHANISTAN.

Sima, September 6.—At a late hour Thursday night a messenger travelling post had reached Ali Kheyl from Kabul and informed Major Conolly, the British Political Agent, that the British embassy at Kabul had been attacked by several Afghan regiments, which had assembled, demanding arrears of pay, and that the military escort of the Embassy were defending themselves. The Viceroy of India immediately ordered the troops at Ali Kheyl to move instantly upon Shuterghar Pass. General Roberts has been ordered to proceed to Peiwar Pass and advance on Kabul, while Gen. Stewart has been ordered to hold Candahar. All the British forces on Candahar will concentrate at Candahar. The forces in Khyber Pass are being strongly reinforced and will operate at Sallalad. Major Conolly telegraphed on Friday night the substance of the letters received from the Ameer of Afghanistan, who confirms the intelligence of the revolt, and adds that the regiments which notified were joined by the populace. The Ameer's arsenal and stores were first plundered and destroyed, and the British Embassy was then attacked by overwhelming numbers. The Ameer declares he was completely surprised by the outbreak. He endeavored to quell it and sent General Daoudshah to Major Cavagnari's assistance, but Daoudshah was unhorsed and fatally wounded. The Ameer then sent his son, with the Governor of Kabul and other influential personages, but the mob was wholly uncontrollable. The attack on the British Embassy continued throughout Wednesday, when a fire broke out on the premises. The Ameer, writing on Thursday, says he is in great distress, and is himself besieged.

London, Sept. 6.—Startling news has arrived from Afghanistan. A large body of Afghan soldiers, assisted and abetted by an immense crowd of the populace, attacked the British Embassy at Kabul, the members of which were at latest accounts defending themselves under desperate circumstances. At the time this intelligence was sent the Ameer was powerless to render the slightest assistance. His arsenal and military stores having fallen into the complete possession of the mutineer soldiery and the populace. He is in fact besieged in his palace, and is in danger of assassination. The Embassy has but a small escort, totally inadequate to the exigency, and it is feared the majority of its members have already been massacred.

Amazement and consternation prevail in London. Recollections of the awful incidents of the mutiny in India come vividly to mind with the dread of similar scenes of terror being introduced in Afghanistan. A special Cabinet meeting is reported to have been called.

London, Sept. 8.—A Simla dispatch reports that grave fears are now entertained that the Ameer has joined the insurgents to save himself. The insurgents have sent messengers to all the tribes and have called on the whole country to rise in arms. It is believed a Heratese regiment has left Kabul for Herat to induce that city to join Kabul in the revolt.

St. Petersburg, September 8.—The *Golos* discussing the Kabul outbreak, says the money expended on the Afghan expedition has been wasted, and that the treaty of Gaudamuck has been torn in shreds. The conquest of Afghanistan by the British is a fatal necessity.

London, Sept. 9.—In consequence of the proportions which the outbreak in Afghanistan has reached, the officials consider it probable that General Roberts will await the co-operation of other columns before advancing on Kabul.

London, Sept. 9.—Sir Stafford Northcote, Chancellor of the Exchequer, speaking at Exeter yesterday, said the outbreak at Kabul appeared to be unpremeditated. The Ameer had been true to the British, and the assistance he implored would not be refused. There seems to be great doubt whether a prompt advance is possible.

ITALY.

A dispatch from Rome says the Pope has written an energetic letter to the Emperor William, warning him of the results of the late negotiations, and suggesting that the Emperor direct intervention in the way to establish harmony. It is reported that Bismarck knew and approved of this step beforehand.

GREAT BRITAIN.

Dublin, September 9.—It is announced that Parnell, Home Rule member of Parliament for Meath, and other persons interested in the land question, contemplate to shortly issue an appeal to the Irish people in all parts of the world to aid in the creation of a class of peasant farmers in Ireland.

London, Sept. 4.—A banquet was recently given at Limerick to Mr. Parnell, the Home Rule leader and member of Parliament for Meath. At this banquet, when the toast to the Queen was proposed it was received with violent hisses and other expressions of disloyalty. It is now reported that the Lord-Lieutenant of Ireland has ordered the Superintendent of Police at Limerick to make a report upon the circumstances leading to this unparliamentary demonstration, which was allowed by a member of Parliament and a magistrate.

UNITED STATES.

Detroit, Mich., September 5.—The steamer Alaska, owned by J. P. Clark, of this city, left here on usual time this morning, and burst her steam dome just as she entered Lake Erie, killing both engineers and injuring eight of the crew, some quite seriously. Both engineers, who were scalded badly, jumped overboard and were drowned. At the time the explosion the boat is said to have been making with the steamer City of Detroit, as they were only about a quarter of a mile apart. Both are fast boats and run about sixteen miles an hour.

THE CITY OF DETROIT TOWED THE ALASKA BACK TO ANNEHURST, THEN THE REVENUE CUTTER FESSENDEN BROUGHT HER TO DETROIT.

The Alaska, one of the side-wheel passenger boats on the river, was built last season, and is 450 tons burthen. She rates A 1, with an insurance valuation of \$33,000, and was commanded by Captain Goldsmith.

IMPORTANT IRISH ELECTION.

The election contest which was fought out at Ennis was a triangular duel. The small constituency numbered 214 at the poll, and, as that figure was divided into three parts by as many popular candidates, it carried the day. Small as the result which must be recognized as significantly important. It is a defeat of the more orderly and conservative party in Irish politics, and in this respect it brings to an end the long reign of comparative peace in the Ennis representation. Hitherto, for twenty years, Captain Stapoole has been able to satisfy the party of order and yet to retain in sufficient degree the support of the reasonable patriots, and when home rule grew into a political force, the late member became a home ruler without sacrificing the confidence of the conservatives. It was no discredit to his moderation that he had to fight a close battle in 1874 against that resolute Nationalist, the O'Gorman Mahon; and it was vastly to the credit of the electors that in such a contest Captain Stapoole should be victorious. As it is, he comes to Westminster to strengthen the most impracticable section of the Irish party, in virtue of a majority of six over the home ruler and twenty-nine over the conservative. But the most notable lesson of the election is the defeat of the priests, who brought all the engines of religious warfare into play against the Nationalist candidate.—*London Globe.*

OUR AGENTS.

Mr. Thomas Payne, of Guelph, Mr. M. Redmond, and Mr. W. Walsh, are fully authorized to do business for the CATHOLIC RECORD.

PORT ALBERT.—W. McBride, Esq., is authorized to take subscribers and receive money for the Record office in Port Albert and vicinity. All business entrusted to this gentleman on our account will be promptly attended to.

Detroit, Mich., September 5.—The steamer Alaska, owned by J. P. Clark, of this city, left here on usual time this morning, and burst her steam dome just as she entered Lake Erie, killing both engineers and injuring eight of the crew, some quite seriously. Both engineers, who were scalded badly, jumped overboard and were drowned. At the time the explosion the boat is said to have been making with the steamer City of Detroit, as they were only about a quarter of a mile apart. Both are fast boats and run about sixteen miles an hour.

COMMERCIAL.

London Markets, London, September 11, 1879.

WHEAT—During most of last week receipts of winter wheat were fair, but so far this week the quantity to hand has been comparatively light. A momentarily active demand has sprung up, due to short-crop, and to-day (Wednesday) as high as \$1.74 per cental has been paid. We cannot however, report any decided or permanent advance from late quotations. Some spring wheat has come to hand which has sold at \$1.35 to \$1.45.

BARLEY—Has not commenced to come in with any degree of freeness yet, and the few lots offered have been in nearly every case of very poor quality.

PEAS—Have been fairly plentiful, but are so dreadfully boggy that they are altogether unfit for anything but chopped feed, and bring only chopped prices, say from 80c to 90c per cental.

HAY—Moderate deliveries and steady at \$9 to \$10 per ton.

BUTTER—The quantity offered for sale is much under the average, while the demand is fair. All the week good rolls have been running at 15c to 18c, some sellers at 16c, and kegs (seldom offered) at 10c to 12c per pound.

EGGS—Are in good demand and steady at 10c to 12c per doz., according to quality and quantity.

POTATOES—Owing to the meagreness of receipts have been held pretty firm at 45c to 60c per bag.

APPLES—And other fruit have been plentiful and generally fetch low prices.

PEACHES—Keep dear, as compared with other fruits.

COMMERICAL.

CHOICE GROCERIES, WINES AND LIQUORS.

FITZGERALD, SCANDRETT & CO.

Have just received a very large consignment of THE VERY CHOICEST FAMILY GROCERIES, AND WINES AND LIQUORS

REID'S CRYSTAL HALL.

Note from Mr. John Grandy, Manager and Secretary of the Hiron and Matthee Mutual Fire Insurance Company, London, Ontario.

DEAR SIR,—It affords me much pleasure to recommend to you the Electric Treatment of Dr. Wilson, for equalizing and regulating the circulation of the nervous fluid and also of the blood, and thus giving tone to the nervous system. I consider it superior to any other mode of treatment. Whenever the system is temporarily jaded by overwork, worried by unusual or excessive mental effort or suffering from exceptional nervous exhaustion from any cause, electricity, I believe, will be found to be the most valuable remedy. In such cases its exhilarating and restorative effect is very marked. It quickly produces a remarkable sensation of *briskness*, of comfort, and a manifest increase of power. It gives to the wearied and languid brain material support, with increased capacity for renewed exertion, while it restores the animal spirits. The specific action of electricity upon the brain and nervous system I do not understand, but its effects are far less evanescent than phosphorus, or other nerve tonics, and is not followed by the difficulties common to them. I believe the remedy is open to much abuse, and, therefore, it is not safe to receive applications from any but those who are well acquainted with both its theory and practice. I can speak from experience in this matter, having taken electricity previous to consulting Dr. Wilson at my house. I therefore take great pleasure in recommending to those suffering from any nervous affections to consult Dr. Wilson as his advice upon those maladies and their treatment is of great consequence. JOHN GRANDY, London, Ont.

N.B.—These testimonials of cures are given, not for the information of those who already know what the proper qualities of electricity can accomplish, but for those persons who have not had time to give attention to the Therapeutic uses of Electricity.

BROWN & MORRIS, LONDON, ONT., ENGLISH, AMERICAN AND GERMAN SHELF AND HEAVY HARDWARE.

Farmers and others may rest assured that everything in this line will be found at our place of business, and will be sold at the lowest price.

BROWN & MORRIS, Cor. Dundas & Clarence Sts., 41-ly

CHURCH AND SCHOOL FURNITURE.

We have much pleasure in calling the attention of School Inspectors, Trustees, and others to our new improved Seat and Desk. Owing to our large experience in the manufacture of School Furniture as a specialty, our attention has been directed to the defects in the existing styles of School Desks, with the result, we believe, of having produced a Seat and Desk perfect in every particular. As will be shown by reference to our illustrated catalogue, which can be had on application, the seats are slatted and curved to fit the body perfectly, and fold out of the way when required. The Desk when folded out is wide and at the most convenient inclination for writing. When folded up for reading, a small ledge keeps the books in place, and the angle of the feet is such that the pupil may sit in an upright and natural position without straining the eyesight in the least. Send for catalogue and price list.

BENNET BROS., London, Ont.
