

The Farmers' Market

WINNIPEG MARKET LETTER

(Office of The Grain Growers' Grain Company Limited, June 25, 1917.)

There is very little future in the wheat markets at present, particularly with reference to the 1917 crop. The market is almost entirely restricted to the clearing of old contracts. This is being done locally as far as country stocks are concerned, and forward to supply open houses. The market for their requirements.

The board of supervisors appointed by the Dominion government to control the handling of the 1917 crop has held sittings in Winnipeg to hear the views of interested parties. Representatives of farmers' organizations, elevator firms, commission houses, brokers, exporters and shippers have all appeared before the board and given evidence as to the best method for handling the crop to give most satisfaction to the farmer. The board has then gathered all the evidence and has decided to recommend that the 1917 crop be sold in the open market, and that the farmers be given a fair volume of trade within a steady range of prices. Heavy export sales in American and Canadian markets have been effected by favorable conditions of growing crops. Barley and flax trade has been light.
