

GRAIN GROWERS

WHY TAKE CHANCES ON YOUR GRADE?

WE HAVE established a **SAMPLING AND GRADING DEPARTMENT** **OF OUR OWN**, in order to check the Government grading of all cars **CONSIGNED TO US** and thus protect the interests of our shippers.

We have our own men in the railway yards to take a sample of your car as soon as it reaches Winnipeg. This sample is brought to our office and examined by our own expert, at the same time it is being examined by the Government Inspector. Should samples become mixed, or any mistake be made in the Government grading, we have a safe check, or should our expert consider that you do not receive the highest possible grade for your grain, he at once takes the matter up with the Chief Inspector, and, if it is not possible to have a satisfactory change made, we are in a position to order a reinspection at Fort William, before your car is unloaded.

THE SATISFACTION which we have given our shippers by protecting their interests in this and other ways is plainly shown in **THE INCREASE OF OUR BUSINESS**. We have handled up to the present time this business year about **15,500,000 BUSHEL**S. If you have not shipped your grain yet, we trust you will consign it to **YOUR OWN COMPANY** and help strengthen **THE FARMERS' CAUSE**.

THE FARMERS' COMPANY

FARMERS! This is **YOUR COMPANY**. **YOU** are the only men who can hold Stock in the Grain Growers' Grain Company, and the only men who have a say in its management.

IN THE PAST FOUR YEARS this Company has saved millions of dollars for the Grain Growers of the West, and is today the largest firm of its kind in Canada. Are you not proud of what you have achieved? Send us a post card with your name and address, and we will mail you booklets telling all about Your Company and the Grain Growers' Movement.

When you are in the City, don't fail to call at our new offices, 7th floor, Keewayden Block, Portage Ave., East of Main Street.
