NICKEL AGAIN BIG QUESTION

Ontario Government's Laxity in not Listening to Opposition Warnings.

(Special to The Ontario)

TORONTO, Nov. 14.—Once again nickel has come to the fore in a startling sensational way and once again the Hearst government, which considered almost as a joke the repeated efforts of the Liberals in the last session of the Legislature to bring the seriousness of the situation before the country, must be in great consternation.

This time it is a direct statement by the Providence Journal, a newspaper which has had valuable and reliable news in regard to the war before this, that 360 tons of nickel are loaded on the German submarine "Deutschland" ready to sail from the United States for Germany, and according to the Journal "the metal which was purchased from the International Nickel Company reached that corporation from Sudbury, Canada, through the Canadian Copper Company."

It will be remembered that the Opposition during the last session of the Legislature, on no fewer than five different occasions, brought up the nickel question, urging the government to take every precaution to prevent Germany getting Ontario nickel and pointing out the illegal arrangement, made by the present Prime Minister himself when Minister of Lands, Forests and Mines, which allowed the International Nickel Company to escape the great bulk of taxation which they would have had to pay under the Act.

A Purely Vegetable Pill.—The chief ingredients of Parnelee's Vegetable Pills are mandrake and dandelion, sedative and purgative, but perfectly harmless in their action. They cleanse and purify and have a most healthful effect upon the secretions of the digestive organs.

PRESENTATION AT THE KHAKI CLUB.

On Saturday evening, Sergt. Major Sharpe, late instructor of the N.C.O.'s of the 235th battalion with a handsome "companion"—Pte. G. Blunden on behalf of the class made the presentation and in handing the gift to Sergt. Major Sharpe, thanked him for his great patience and consideration during the somewhat strenuous period of tuition, trusting that at the coming examination they would prove themselves worthy pupils.

Sergt. Major Sharpe was indeed surprised and expressed his appreciation of their kind words and handsome gift. He gave the boys a few words of advice re their duties and responsibilities of N.C.O.'s. He spoke highly of the officers of the 235th in their treatment of all ranks. He expressed his sorrow at severing his connections with the 235th, saying it had been one of the happiest associations of his service, and he considered that when the test came on the firing line the boys of the 235th would prove themselves equal to the best and a credit to their country and Empire. The class proceeded to Kingston yesterday for examination.

SYDENHAM MAN CAUSED A PANIC

Armed with a Revolver He Sought the Doctor's Life.

Residents of the village of Sydenham were panic-stricken late Monday afternoon when it became known that a young man, thought to be mentally unbalanced, had made an attempt to shoot one of the village doctors. The man in question appeared at the doctor's office brandishing a revolver and threatened to shoot him. The doctor, with great presence of mind, began to talk to the youth in an effort to attract his attention from the weapon which he held in his

WEAR RUBBERS TO SAVE SHOES

Economical Housewife is Giving this Advice to Members of Her Family to Defeat High Cost of Shoes

The economical housewife is outfitting her family now with rubber footwear for the fall rains and the winter snows. She is doing this because she knows that rubber is the only staple article that has decreased in price since the war began, and that rubber shoes and overboots cost no more now than they did before, while leather has reached a price that is almost prohibitive.

Save your Shoes by Wearing Rubbers is the thrifty woman's advice to her family. Rubbers cost no more than they did two years ago, leather has advanced over 100 per cent. The British Government has made cheap rubber possible. Show your patriotism by buying rubbers and overboots to save your leather shoes.

hand. An offer to trade the gun for a better one was made and the young man "fell" for the deal. The physician happened to have an empty revolver in his office and the transfer was made, the doctor secured the loaded weapon in exchange for the empty one. A few minutes afterwards the young man left the office and the doctor lost no time in getting to his home. A few minutes later the young man became conscious of the trick which had been played on him and he hastily followed the doctor to his home. Denied entrance there he became angry, and proceeding down street to the doctor's office he broke in the door and started to move the office furniture to the street. Practically the whole population was attracted to the scene. But the young man worked rapidly and before any plan to deter him was perfected, he had dumped medicine, surgical instruments, drugs and furnishings in a pile on the street.

Y.M.C.A. FIELD DAY AT CHURCHES

Rousing Addresses in Local Churches—Promising Outlook for \$15,000 Campaign.

Sunday was indeed a Red Letter Day for the Young Men's Christian Association of this city. Strong and inspirational addresses by men of experience in the work of the Young Men's Christian Association in this and other countries were given in the different churches. Rev. W.E. Taylor of China, International Secretary Y. M. C. A. of that great Empire occupied the pulpits of Christ church in the morning and in the evening the church of St. Thomas (Anglican). Dr. Taylor at both services deeply impressed his audience. His address showed scholarship in all the large problems facing the world today. At the close of his address last evening he was heartily congratulated on his masterly presentation of the problems of our young men the world over. Dr. Taylor referred to the great work which is being done by the Young Men's Christian Association of China. He also told of many interesting incidents connected with Chinese life. The speaker dwelt at some length on the remarkable work the Y. M. C. A. is doing in the European war prisons. This work is carried on without regard to nationality and all nations at work receive the Y. M. C. A. in a cordial way. Dr. Taylor's remarkable address will be reported early in full in a later edition of our paper. In response to many calls for the same.

MAYOR DENIES REPORT

Did Not Use Influence to Keep Down Wages of Workmen

Mayor Ketcheson last evening branded as a falsehood the story which is current that the mayor and an alderman had been using their influence to keep down the wages of laboring men by going to the manager of the Maple Leaf Tires Ltd., and urging him not to pay high wages because this would make the city pay higher salaries. "There is no truth in that rumor. We are quite in sympathy for a fair wage. We realize every man must get a good wage to live on in these days of the high cost of living. I am prepared to put up \$100 for any man and a credible witness who will say that I ever made such a statement.

Ald. Duckworth stated that a man at the Maple Leaf works had said wo city officials visited the works and opposed high wages being paid to the men. It would be well to bring this man to court. The Mayor—"I'll bring him there at once."

Council one and all denied the truth of the report. Patrolman Arthur W. Lund, a probationer of one month, at Windsor, heroically rescued an unconscious man from a burning house by climbing the rainpipe to the second story. John Purdy, High County Constable of Frontenac, died suddenly after breakfast at his home in Kingston township.

No Cure More Guaranteed

Never known to fail; acts without pain in 24 hours. Is soothing, healing; takes the sting right out. No remedy so quick, safe and sure at Putnam's Painless Corn Extractor. Sold everywhere—25c per bottle.

THE Y.M.C.A. IN THE WAR ZONE

Rev. R. W. E. Taylor of China Spoke on Activities of the Association in Europe.

The splendid work now being done in France, Mesopotamia and other areas was characterized as a Christ-like ministry of practical and helpful service. At the present time no less than 48,000,000 men and boys are serving under the colors of the various nations now at war. Many millions more have been wounded. Dr. J. R. Mott, General Secretary of the Young Men's Christian Association of America has recently returned from a two months' visitation to the military hospitals and prison camps of the various nations. In one city he visited, there were 1,200 military hospitals full, and on that day the 126th train loaded with wounded had just arrived. 3,700,000 have died making the supreme sacrifice. There are at the present time more than five and a half million men and boys in the various prison camps. The Young Men's Christian Association is the Christian organization which has free access to the prison camps of all nations now at war. This offers extraordinary opportunities for service of all kinds. Much has been done to alleviate the suffering and hungry and many lives have been saved by the devoted services of the Association Secretaries working in the front line trenches.

AUTO SPEED OVER BRIDGES

New Bylaw to be Prepared—Will Raise Limit for Cars to Eight Miles.

When a bylaw was read at the City Council last evening to limit the speed of automobiles and carriages over the bridges of the city to the rate of five miles per hour, discussion at once arose. Mayor Ketcheson—"There is no use having a bylaw passed that cannot be lived up to. I think the speed ought to be raised to 8 miles per hour for autos."

Ald. Woodley—"I don't think eight miles per hour will hurt our bridges. Cars cannot easily be reduced to five miles per hour."

Ald. Parks—"What right have you to have those five mile signs up at the bridge then?"

Ald. Whelan referred to the speeding over bridges and roadways. City Clerk Holmes said this was the only city where low speed signs were hung up.

"Is it advisable to give autolists the latitude of eight miles per hour in the present state of the bridge?" asked Ald. Duckworth.

Mayor Ketcheson—"You don't want to have this called a slow town."

Ald. Deacon—"I think eight miles per hour over bridges is pretty slow for a car."

City Clerk—"Should there be a new bylaw prepared limiting autos to 3 miles and horse-drawn vehicles to a walk?"

"I move that a new bylaw be prepared according to the Clerk's suggestion."—Ald. Woodley. His motion carried.

FAMILY DOCTOR'S GOOD ADVICE

To Go On Taking "Fruit-a-tives" Because They Did Her Good

ROCHON, P. Q., Jan. 14th, 1915. "I suffered for many years with terrible indigestion and constipation. I had frequent dizzy spells and became greatly run down. A neighbor advised me to try "Fruit-a-tives". I did so and to the surprise of my doctor, I began to improve, and he advised me to go on with "Fruit-a-tives". "I consider that I owe my life to "Fruit-a-tives" and I want to say to those who suffer from indigestion, Constipation or Headaches—try Fruit-a-tives and you will get well". CORINE GAUDREAU, 50c. a box, 6 for \$2.50, trial size, 25c. All dealers or sent postpaid by Fruit-a-tives Limited, Ottawa.

MAPLE LEAF LTD. WRITES COUNCIL

Regarding Right of Way, Fixed Low Assessment, and Bridge Approach Improvements.

Police Reduction. Impossible Says Mayor While Fire Alarm System is Centred in Station. An important letter received by Mayor Ketcheson from Mr. H. C. Long, president of the Maple Leaf Tires Ltd., was taken up by the City Council and referred. It read as follows:—

Right of Way to Works. "Some time ago our Mr. Dunham regarding the right of way to the G. T. R. along Railway street which adjoins our factory. We have heard nothing further regarding this and we would be very glad if you will let us know just what we may expect along these lines.

"We would also like to know what arrangements could be made with your Council regarding fixed low assessment on our plant for a number of years, as we feel certain that the citizens at large will look with favor on at least a nominal assessment being placed thereon, as from my conversations with you when we first came to the city I understood that it would be very easily obtained upon a plant of any business starting in Belleville.

Workingmen's Houses to be Built. "We would also like to take up the matter of water with your council and see what can be done regarding extending the present system to our plant. I understand it is about 1000 feet to the nearest hydrant and as we are inside the city limits, we would of course expect fire protection, and it seems to us that this hydrant, 1000 feet away from the plant, would not mean the very best of water service in case of fire.

Improvement of Overhead Bridge Roadway. "We would also like to call your attention to the large overhead bridge on the concession line. The abutments to this bridge consist mainly of large logs and filled in between with earth. The company would like to get in touch with your city engineer with the intention of removing these logs or at least building a cement retaining wall at the edge of the street line which would allow of about six feet extra width in the approach to that side of the bridge and when building this retaining wall on the left of the drive we would like to fill in the roadway and make the driveway wider and put an iron railing along the top of the retaining wall. This will be taken in hand and completed without any costs to the city whatever and will be done under the supervision of your city engineer.

"It may be possible, however, that the county authorities will be willing to do to the north of the road which is in the county, the same as we will be doing and if such is the case it means a very fine approach to the bridge although the bridge has such traffic now that a nice concrete one would not be out of the way.

"We will be operating several very heavy trucks between our plant and the G. T. R. and C. P. R. which will necessitate crossing this bridge and I am very doubtful if the bridge, in its present condition, will stand a very heavy truck crossing it. This, however, would appear a matter to worry the Grand Trunk as I understand they own and keep the bridge in repair."

The city decided, said the Mayor, to give the Maple Leaf Tires Ltd. the right to cross Railway street. Mayor Ketcheson said if Mr. Long gave City Solicitor Masson certain facts, the agreement would be drawn up. The land entirely is in the hands of the Maple Leaf Tires.

Ald. Parks—"Let them give us enough land to make a street."

Ald. Whelan—"What benefit would the road be to us if the company controls all the land?"

Ald. Parks—"The bylaw never passed this council."

Mayor Ketcheson—"We could not use Railway street in a thousand years as it runs into the overhead bridge road."

"We would like the engineer's report on the cost of water and the strength of the overhead bridge," said the Mayor.

Sand on Pavement. Ald. St. Charles—"What tax does

MAPLE LEAF LTD. WRITES COUNCIL

Regarding Right of Way, Fixed Low Assessment, and Bridge Approach Improvements.

Mayor Ketcheson—"We could not use Railway street in a thousand years as it runs into the overhead bridge road."

"We would like the engineer's report on the cost of water and the strength of the overhead bridge," said the Mayor.

Sand on Pavement. Ald. St. Charles—"What tax does

the Griffin Amusement Company pay?"

Mayor—"Just what the statutes of Ontario fix and we have no power to change this."

Ald. Woodley—"Is there any available sand for putting on the icy spots of the pavement?"

Ald. Whelan—"Mr. Henderson said he could get some at \$1.75. He is arranging for some."

Ald. Whelan—"No crossings have been put in this year. I think about 50 are needed."

Ald. Smith—"Can anything be done to relieve the low pressure of gas at Molsen's?"

Ald. Platt—"It is up to the manager to get the water pumped out. It is a local question."

Ald. Deacon—"What is the stand of the Police Commission as to the number of police officers?"

The Mayor—"Two policemen resigned and two new ones were appointed. The question of reduction came up at the meeting. But as long as the fire alarm is centred in the police station, the police force cannot be reduced. Otherwise the system is no good."

Ald. St. Charles—"Is the walk to be built across the commons at the foot of Moira street hill?"

Mr. Henderson said it would be appointed officers to enforce the provisions of the Ontario Temperance Act by bylaw.

Ald. Deacon "That the Mayor, Ald. Platt and Ald. Deacon be a committee to take up with the Board of Trade, the question of the construction of radial railways in this district under the Radial Railway Act."

Inspector Arnott's resignation of his city offices was accepted.

TAXES POUR IN

Tax Collector Presents Favorable Report to Council

The collecting of taxes this year is very favorable. Since July 25, \$7,700.12 has been collected on 1914 account, leaving a balance of \$2,266.73. This latter amount is almost all remissions and the 1914 account is accordingly practically eliminated.

The 1915 account shows on July 25 uncollected \$46,217.32, of which \$5,567.99 has since been collected. A balance of uncollected remains—\$40,649.33. Today Tax Collector W. L. Doyle starts on the 1915 account. The 1916 account is as follows: Total amt charged '16 account \$212,936.66; amount collected to date—\$151,032.38, leaving a balance of \$61,904.33.

Mayor Ketcheson and Ald. Woodley commented favorably upon the financial situation of Belleville when this report was read.

thoroughly that stomachic and intestinal worms are literally ground up and pass from the child without being noticed and without inconvenience to the sufferer. They are painless and perfect in action, and at all times will be found a healthy medicine, strengthening the infantile stomach and maintaining it in vigorous operation, so that, besides being an effective vermifuge, they are tactical and halt-giving in their effect. Miller's Worm Powders act so

TRUSS TORTURE

Once Thought Necessary, but Now Sought for Relief is Ended.

Wonderful Method Retains Rupture Without Knife, Danger or Pain. J. Y. EGAN, Specialist of Toronto

Old-fashioned truss cure is no longer necessary. Galling, slipping trusses and barbarous methods of treating rupture are done away with by the wonderful invention of a specialist who has devoted fifty years to this one affliction. The marvelous new "CATHETER" fits to the ruptured instant relief, rest and security where all others fail. It stops all irritation, and restores every part to its natural position as soon as it is used and for all times and old ruptures are thrown away.

"CATHETER" cures are absolutely without operation and the cost is small. Millions of cured men, women and children testify. Also endorsed by many physicians. Where others fail it wins a life to my greatest success. Nothing complicated, no risk or irritation, but just a natural restorative method. Immediate relief guaranteed. No truss or brace—just straight business. Do not delay this advice, or delay, but tear off free coupon now.

Free Consultation Coupon. This coupon, upon presentation to J. Y. Egan, 225-227 (Street, Toronto) who will visit the towns and cities mentioned below, will entitle bearer to free consultation and examination of rupture. Ask at hotel office for number of my room. Note date.</
