NOT A BAD OLD FLAG

Referring to a rent attack on the British flag at New York. Life of that city gives warning to those who want to pull it down that they covers too much—a great deal too much good as well as quite a lot of evil...... It is a flag, that, outside of Ireland, stands for more justice in the world and more humanity and altruism during that the world and more humanity than any flag war. They had submitted to the draft, and brought Liberty bonds and skimped on meat and in the world and more humanity than any flag war. They had submitted to the draft, and brought Liberty bonds and skimped on meat and whatever, in the meantime, is going to happen, it seems to be the flag under which Ireland must come eventually to peace, and as great a degree of contentment as is compatible with the Irish temperament and experience."

This is very well put, and from the point of view of an American periodical may be regarded as very fair to the much-abused old flag. And, even if Ireland be not excluded, there is much even if Ireland be not excluded, there is much even if Ireland be not excluded, there is much even if Ireland be not excluded, there is much even if Ireland be not excluded, there is much even if Ireland be not excluded, there is much even if Ireland be not excluded, there is much even if Ireland be not excluded, there is much even if Ireland be not excluded, there is much even if Ireland be not excluded, there is much even if Ireland be not excluded, there is much even if Ireland be not excluded, there is much even if Ireland be not excluded, there is much even if Ireland be not excluded, there is much even if Ireland be not excluded, there is much even if Ireland be not excluded, there is much even if Ireland be not excluded, there is much even if Ireland be not excluded, there is much even if Ireland be not excluded, there is much even if Ireland even if Ir

According to the Berlin correspondent of a Chicago paper, not only the former German Kaiser but millions of ordinary German people and all the German financial, industrial and political leaders, look to the United States for if tempted and tried almost past your enduraid which will enable Germany to take her place again as one of the great nations. The former Kaiser is represented by his former court chaplain as looking forward to a reconciliation between Germany and the United States. He That you will succeed if you only will stray; foresees both nations profiting materially from Just think of those poor souls who listened and the renewed friendship, Germany giving the benefit of her scientific and cultural studies in turn for the kind of help which the United States can give. It is not so long ago since the people of the United States were declaring they were fed up on German culture; but so

many things have happened since armistice day that it is not easy to say what's what today.

It is interesting to learn from his former court chaplain that the former Kaiser feels hurt because British ministers of the gospe have attacked him from their pulpits; but it is even more interesting to learn, also from the former court chaplain, that the former Kaiser "is above all small hatreds." Presumably i he great hatreds, such hatreds as those y the German Hymn of Hate, for inhe deems worthy of his attention. The world has sadly misjudged the former Kaiser, according to his former court chaplain.

"William Hohenzollern always stood for peace," he says, and he predicts that when his-tory tells the truth about him, the world will see how great was his work for peace. Even today it is the belief of the former Kaiser that every good citizen should work for international peace and unity. Perhaps some day the world will wake up and find out that its vision of the former Kaiser as the man who was mainly responsible for letting hell loose in Europe was only a horrible nightmare. In the meantime it is all very puzzling, or would be if the world had not had ample opportunity to form an estimate of the character of the former Kaiser. Apparently he has not changed. Indeed we have the assurance of the former court chaplain that, except for increased grayness in his hair, there is no change in him. Presumably he has not even learned to profit by his experience. Bitter experience should have taught him that he is not to believe everything he hears from or about the United States.

THEY GREW TIRED SOON

In an editorial in Current Opinion for December, Dr. Frank Crane explains why Harding produce confusion. Any man who can't keep it down. It won't stay down. "It of the United States were tired. They had a "millionaire" in official parlance.

Lincoln was known chiefly as the most thoroughly abused man in the United States.

'Go the whole Dr. Crane's explanation does not do much credit to the people of the United States. They were carried to a high pitch of enthusiasm. Then suddenly there was a moral slump. "Yesterday we were slapping John Bull states."

Work so well. At the time of the assassination, Lincoln was known chiefly as the most thoroughly abused man in the United States.
