HEADACHY, BILIOUS, UPSET? "CASCARETS."

BILIOUS, THROBING HEADACHE MEANS BOWELS ARE CLOGGED AND LIVER STAGNANT.

You're bilious, you have a throbbing sensation in your head, a bad taste in your mouth, your eyes burn, your skin is yellow, your dark rings under your eyes; your lips are parched. No wonder you feel ugly, mean and ill-tempered. Your system is full of bile not properly passed off, and what you need is a cleaning up inside. Don't continue being a bilious nuisance to yourself and those who love you, and don't resort to harsh physics that irritate and injure. Remember that most disorders of the stomach, liver and intestines can be quickly cured by morning with gentle, thorough Cascarets—they work while you sleep. A 10-cent box of your druggist will keep your liver and bowels clean; stomach sweet and your head clear for months. Children love to take Cascarets, because they taste good and never gripe or sicken.

DIED

FAWKES—In Brantford, on Tuesday, March 11th, 1913, Mr. George H. Fawkes, in his 81st year. Funeral will take place from his late residence, Thursday, March 13th, to Mount Hope Cemetery.

WHAT THEY BLOCK

This is the clause the Liberal position is blocking. "From and out of the consolidated fund a sum not exceeding \$5,000,000, for the purpose of partly increasing the effective forces of the Empire."

A REDUCTION IN THE RATE.

As exclusively announced in the Courier last evening, the tax Brantford this year will be less than last year.

This does not mean that the services are to be starved but a business like grappling with the revenue of course, will be larger, as based upon the assessment, but so are the demands from the various separate corporations.

Another feature is that the Railway difficulty is quite likely settled this year, and so the rate a further sum of \$17,000,000. To Aid Spence the efficient man of Finance very much credit for the manner in which he is siding over that department of affairs.

AS TO SUPPLY
What the Grit obstructionist after at Ottawa is by continue to exceed the time supply when public officials and contractors have to go without their pay. The request of the Government moderate and just.

They ask first that a reasonable date shall be set for the Bill in Committee shall be brought to a conclusion. They ask in the second place reasonable date shall be set for vote upon the third reading of Bill.

They ask in the third place usual vote on account of supply order to carry on the business country shall pass. This is necessary as the fiscal year will end on the 31st of March and after that date no payment can be made to Civil servants who are dependent for their existence upon their salaries, nor the works can be carried on as a part of the business of the country can proceed unless such a vote account is granted.

Up to the present year they never been refused. During the procity debate of 1911 the Conservative party granted a vote of one of the main estimates on the 17th of March and on the 17th May granted one quarter of the estimate in all five twelfths, a little more than one half. This vote was by the Conservatives without discussion and in order that the business of the country might not be impeded.

PUTTING ONE OVER
The debate and circumambulation of "putting one over" is known mortals in general.

Most of us have either had done to us, or else have indulged the beatific smile which comes from the accomplishment of such an achievement. Premier Borden must have indulged in some ingenious chit-chat during the wind jamming tactics of the Opposition over the navy when all the time he had that in his mind the Admiralty—Winston is a Grit at that.

In that production Churchill, behalf of the Asquith Government states—and the words are well repeating—

"It would be wholly unwise Canada to attempt to undertake building of battleships at the present moment. The cost of new ships would be approximately £15,000,000, and it could not ready for four years. Such a course could only be justified on the assumption that Canada is to keep a continuous naval building programme, and turn out a succession of ships, after the fashion of the Seventy-five million dollars at before the plant could be established.

FOR SALE!
