TIMBER RESOURCES.

It is gratifying to note the fact that the timber resources of this valuable than was, believed in the along the Yukon proper in many places the timber growths have been practically cleared-partially through the work of lumbermen securing timber for the Dawson mills or for firewood purposes and partially as the result of forest fires.

Along the tributaries of the Yukon. bodies of forest growth sufficient if said of them. properly protected to supply all demands for many years to come.

The timber which has thus far been taken from the Klondike and Stewart districts has come almost entirely from the immediate vicinity of the streams themselves. There has been little effort to prosecute the industry of logging by the employment of has been impossible for the lumbermen to go any distance from the river bank in search of timber.

When a proper system is introduced into the working of the lumber industry it will be found that thousands of acres of splendid timbered land will become immediately avail-

In the meanwhile it only remains that proper care be taken to insure some measure of protection against the forest fires which in previous years have invariably prevailed during the summer.

There is plenty of timber in the territory if the sources of supply are sufficiently safeguarded.

The visit of Commissioner Ross to the capital should be productive of a vast amount of good for the territory. Mr. Ross has been in Dawson sufficiently long to acquaint himself with a great many of the most vital needs of the district and it may be taken for granted that his influence will be exerted at Ottawa for the betterment of local conditions. If the Yukon Commissioner's wishes are followed, there is nothing in the way of required legislation which the territory will not be given, and that at a very early date.

President Roosevelt has declined to approve his own promotion to a In view of the fact that under the constitution the president of the United States is comman der-in-chief of both the army, and navy, it does not appear that Mr. his modesty. However, it is refreshing to note throughout all of President Roosevelt's actions a distinct

disregard of self. Uncle Sam has GRAVES OF never had in the chair of the chief executive a man of more admirable character than "Teddy" Roosevelt.

The Nugget is reliably informed that the opening of summer will see one mill of at least 45 stamps running full blast. When such evidence Killed and Buried begins to accumulate, the claims of this camp as a producer of ore will command a respectful hearing in every money centre in the world. The past two years have brought forth plenty of talk-what is wanted Will Be Located and Suitably paying value and in immense quantities has been located near Dawson can no longer be doubted. The only thing that remains to be done is to begin and carry forward the actual Countess Minto as active president, work of development.

The words of the late President Mc Kinley, uttered at Buffalo on the day preceding the one on which he was shot, seemed almost to have been prophetic. His successor has accepted the policies as outlined in Mc-Kinley's speech as indicating his own lines of action, and is following them out almost to the letter. McKinley dead is just as potential a factor in the affairs of his country as he was when, the chosen one of 80,000,000 people, he took the presidential chair.

Dr. Alfred Thompson has taken a position with reference to the result mend 'that gentleman to the good refusing to be a party to the demand for a recount of the ballots, Dr. Thompson has won the respect of all his late-opponents.

It is about time that some enter-The announcement of such a contest is usually the earliest harbinger of
