FLORAL WORK

On Short Notice AT THE GREENHOUSE OF

of Yankee Lumbermen.

ey-General Says He Will 1898-9 Will Be Greatly Increased

Toronte, Aug. 3.—In reply to Mr. Whitney, in the Legislature yesterday, the Premier said that the second half of this session of the House might be called by proclamation, which course gives the Government the option of a year. In the interim the bye-elections will be disposed of and things political in the province will be put upon a more certain basis. To provide for any contingencies that might arise, the rules of the House respecting the time for the reception of petitions, for the introduction of private bills and for the reception of reports of committees, are, by resolution, to count from the first day of the re-assembled or adjourned session. Thus when the members retire to their homes upon this occasion the House will not be proregued.

Speaker's Friday Night Ruling.

Mr. Whitney said that while he had no desire to question the justice of the English House of. Commons precedent for tid did not require the substantive motion until after the division, when the votes of the eight members could be challenged.

The Attorney-General faid he had been ready with facts to reture the point raised, but as the Speaker was prepared also he had not submitted them. He argued that as the question was a matter of public policy the precedents sustained the votes of members unchallenged.

New Legislation Introduced.

The Attorney-General introduced. Teronte, Aug. 23.—In reply to M

New Legislation Introduced.

New Legislation Introduced.
The Attorney General introduced a couple of amending bills, one to rescind legislation which prevented city clerks from posting up voters' lists before the Court of Revision had passed upon the assessment, and the other to correct certain clerical and typographical errors discovered since the revision of the statutes.

This Year's Deficit \$651,000. This Year's Deficit 8681,000.
Then the House passed in committee, with Mr. Stratton in the chair, all the estimates brought down Friday night, with the exception of the \$60,000 asked for 'civil government,' which, by Mr. Whiteny's request, was allowed to stand. Mr. Matheson said there was no statement as to how much of this was to tide the province over the year 1898, and how much was intended to provide runds for 1890. This was a loose way of presenting 1899. This was a loose way of presenting the interim budget. The additional \$425,000 would make the total estimated expenditure for 1898 to be \$3,944,750, while the Government's estimate of total receipts was but \$3,298,379. This left a round deficit of \$651,000. In the face of this the Government should, either cut down expenses or put on taxation. They had scarcely made ads meet last year in spite of an excess of \$700,000 in Crown ands and timber sales.

Provincial Treasurer Harcourt remarked that estimates *0 brought down were new known to be challenged, as a search of Hritish or Canadian Parliamentary journals would, show. It was always known as a vote of credit, and the very 1899. This was a loose way of presenting the interim budget. The additions

journals would show. It was always known as a vote of credit, and the very fact of its being presented in the rough bulk forbade the estimates being challenged. They were not brought down to cover 1898 expenses at all, but only for forty days of 1899. It was but a repetition of what had been going on for the past seven or eight years without objection.

Mr. Whitney—I hope the Government will give us an unwritten promise that they won't say on the stump that we didn't challenge this vote.

Mr. Kribbs objected because the estimates were not printed.

The Conservative whip stunned Mr. Hardy by asking whether if Messrs. Gibera and Bryden were still in the Cabinet

on and Dryden were still in the Cab without seats next year part of the vote would go to pay their salaries. The Premier advised him to put his ion on paper.

To Have Counsel at Quebec.

Questions on the order paper elicited some interesting facts connecting the timber question with the Quebec Confer-

ence.

The Attorney-General, in reply to questions by Mr. Whitney, said that his Government had received intimation that American lumbermen holding timber limits in Ontario had presented to the United States Government objections to the Act of last session respecting the manufacture of pine cut on the Crown domain. These representations had been forwarded to the Imperial and Canadian Governments. The correspondence had been transmitted to the Provincial Government by the Federal Government for men; by the Federal Government for answer, but not for publicity at pres an answer, but not for publicity at present. Bespatches answering the complaints had been forwarded to the Federal Government on behalf of the province, in which the contention of the American lumbermen was opposed throughout. The Government understood that certain American lumbermen had retained counsel to appear on their behalf before the Quebec Conference with reference to the complaints against the new Ontario Timber Act.

Watch Lumber Interests at Quebec.
Mr. Whitney moved for a roturn of
conies of all correspondence between the
Ontario and Federal Governments relating to the complaints of the American
Government, and their reported intention
to have eminent counsel voicing their
protests before the Quebec Conference. In
moving it the Opposition leader spoke of
the vast importance infinitely enhanced
by what was to transpire before the International Commission. He called upon
the Premier to see to it that the Governthe Premier to see to it that the Govern-ment would be adequately represented at Quebec to answer the arguments of the Yankee-lumbermen. ankee-lumbermen.
Mr. Hardy sald he would be unable to

Mr. Hardy said he would be unable to bring down the correspondence, since secrecy had been enjoined from. Ottawa. He had asked to be allowed to give it publicity, but the Federal authorities had not conceded the point. The petition of Don M. Dickinson of Lansing, Mich., and a fellow-lumberman of Detroit, called upon the Dominion Government to consent to disallow the late Ontario timber legislation at the Ouebec Conference. The Attorney-General stated that he had taken the ground that such disallowance would be ultra vires of Federal power, in that

conference.
In reply to Mr. Miscampbell Mr. Hardy
said 200,000,000 feet of lumber in logs

Hon. Mr. Davis said the increase was due to the war.

Mr. Kidd (Carleton) said there was a rumor in his riding that the Government had sold twine to its contractor friends at 3 or 4 cents while they retailed it to the farmers at 14 cents.

The return will be brought down.
The motion of Mr. Duff (W. Simcoe) for a return of copies of all correspondence between the County Council of Simcoe and any member of the Government with relation to the injurious effects of the barberry shrub or hedge on grain crops, was also agreed to.

Evidence for the Prosecution in the Beyer Murder Case All In.

The final evidence for the prosecution in the case of Andre Riopelle, charged with complicity in the death of Leon Boyer,

omplicity in the death of Leon Boyer, was given vesterday.

Mr. Foran, Q.C., one of the lawyers for the defence, says that they intend to call about five, witnesses. Part of their evidence will, go to contradict that given by Drs. Fontaine and Paquet. The rest will be from parties who saw the deceased and the prisoner, Andre Riopelle, driving along the Eardley road on the night of the tragedy in the position Riopelle has all along said they were in. That is that Riopelle was asleep in the bottom of the wagon, while Leon Boyer was driving. Dr. Church of Aylmer gave evidence for the defence. He said that he examined body of deceased a few hours after death and that Boyer's death was accidental. There was no evidence on the body of violence. An adjournment was made until to-day.

London, Aug. 23.—The Manchester Guardian says: We understand that United States Ambassador Hay's recall to Washington to accept the post of Secretary of State is due to his special fitness to carry out a polley in regard to which negotiations have been proceeding for some time between Washington and London, and upon which a substantial agreement has been reached, whereby the two countries will act together in the far East, or wherever American and British interests are identical.

There is no intention of binding the nations in ap alliance, Each is to be free to pursue its own destinies in its own way, but the Governments will act together diplomptically where their common interests are concerned.

Atbara, Aug. 23.—The transport col mn of the Soudan expedition, which left Camp Athara on Aug. 16, marching along the left bank of the Nile to an adanged post at Nasri Island, arrived at Metemmeh on Sunday last. Metemmeh tself, a town of 5,000 houses, is now a itself, a town of 5,000 houses, is now a city of desolation, its houses in ruins, its alleys blocked with skeletons and its courtyards pulvid with corspes. The few natives seen are disposed to be friendly. The Sirdar, having already reconnoitered the river to Shabluka, evacuated by the Dervishes a fortnight ago, within 50 miles of Khartoum, found the passage easy for the gunboats. A full advance is expected to begin shortly and it is not unlikely that Khartoum will be captured by the middle of September. The heat is trying, but the expedition is in good condition. Practically the whole force is now encamped at Wadhemid, 55 miles from Khartoum. The Sirdar has arrived there.

A Newmarket Girl Shot and Killed Her Sister.

Her Sister Marrying, and, Crazed by -The First Shot Produced Death

Newmarket, Ont. Aug. 28.—An awful tragedy was enacted here yesterday morning about 7 o'clock, when Minnie Sexton deliberately put four 32-calibre bullets into the body of her elder sister, Susie Sexton, killing her instantly. The gtrls were orphans, and lived together. Susie was at the wast tub-48 the time, while Minnie was preparing toast for breakfast.

while Minnie was preparing seass for breakfast.

George Partridge was passing the house when the shots were fired, but hearing joyous laughter from the house, thought that the sisters were amusing themselves. Minnie dressed herself and went to Barrister Widdifield and told him what she had done. Mr. Widdifield at ence started for the house, accompanied by the girl. On his arrival he found that the girl's story was only too true. Suste Sexton was lying on the floor dead.

Minnie was at one time incarcerated in an asylum for the insane, and it had been noticed for some time past that she was acting rather queerly. No particular attention was paid to the fact, however, as the girl was believed to be harmless. The dead woman was about 35 years old, and

the girl was believed to be harmless. The dead woman was about 35 years old, and was to have been married shority. Min-nie, however, was violently opposed to her sister marrying, and had been heard to declare that she would never allow her to de so. Minnie is now in charge of the police.

LATER DETAILS OF THE TRACEDY Appears as if the Murderess Was Crased by Jealousy.

Newmarket, Aug. 28.—"I could not belp it; I was compelled to do it by some impulse," remarked the murderess calmly, as she told some of the neighbors of the dreadful tragedy.

While the two girls were engaged in While the two girls were engaged in their household avocations, Minnie suddenly left the kitchen and ran upstairs, where she secured a revolver that was kept in the house. Returning to the kitchen, she placed the revolver close to her sistor's back and pulled the trigger. Sman fell back on the floor, when Minnie deliberately fired three shoes into her breast; killing her instantly. After the deed was committed, she placed, the revolver on the kitchen table, walked omposedly to the office of Mr. W. T. Widdlield, bigrifer, and told what she had posedly to the office of Mr. W. T. wiedz-field, barrister, and told what she had done. She laughed while explaining how she shot her sister, and did not in any way seem to realize the terrible position in which she was placed.

The Love of the Sisters It is said that the love of the two girls for each other was touching, they being very seldom apart if they could help it. Minnie, who committed the murder, was ter, and would hardly let her out of her sight, following her when she wents any-where. Minnie, however, was known not to be strong mentally, and about three-years ago was placed in the Toronto Asy-lum for the Insane, where she remained for three months. She was discharged as cured, and while she had never since shown any signs of violonce, still it was noticed that at times her mind appeared to be wandering. The jealousy of her sis-ter that rankled in her mind until it end-od in murder was noticed, however, whenever Sušan had company at the house. Minnie objected to this and it was the cause of many a hot quarrel between the cause of many a hot quarrel between the two. Minnie would always run out of the house whenever Susan had com-
