Who will be present with Mr. Trudell at the opening of the S.T.'s store to-morrow.

SEPARATE SCHOOLS WIN THEIR CASE.

(Continued from page 1.)

carelessness in comparing the assessment rolls with the assessors' field notes, from which the rolls are made, and partly to the fact that the instructions given by the Assessment Commissioner to the assessors, previously to this year, were not in accord with the law.

A correct course is being pursued this year and therefore this incorrect assessment need not occur to any serious extent again if the assessors exercise proper industry and care. In previous years no Roman Catholic has been assessed as a Separate School supporter unless he had given notice in writing that notice had been entered in the index book. No attention was paid to his request to be so assessed, made to the assessor when making the assessment.

If a man who had not given a notice in writing by chance was on request put down by the assessor as a Separate School supporter, the City Clerk in making up the collector's roll made a practice of striking him off the Separate School list and putting him down as a Public School supporter. This course is not according to the statute, and is now being changed, and the notices are taken only as a guide and the verbal request of the ratepayer is acted upon as well as the written notices.

It is contended by the City Solicitor that each of these 71 persons, having had the statutory notice that he was assessed as a Public School supporter stamped on the face of his assessment notice, should have appealed to the Court of Revision to have this error corrected and not having done so, it is not in the power of any official to correct it after the assessment roll has been revised. This contention is in my opinion correct, so far as the City Clerk is concerned, notwithstanding that it seems to cast an unfair burden upon these ratepayers, after having given notice in compliance with the statute and to be unjust to the other Separate School supporters, but under Section 50 of Chapter 24, R. S. O., it is within the power of the City Council if the Council sees fit, to direct the amount of these taxes to be paid to the proper School board, neither the Court of Revision nor the County Court Judge has given a decision on this point as to any one of these 71 ratepayers.

In addition to the cases dealt with in the preceding paragraph of this report, about 200 new ratepayers gave written notices to the City Clerk on 27th February, 1907, that they are Roman Catholics, and desire their taxes to be paid in support of the Roman Catholic Separate schools of this city. The aggregate assessment of these persons amounts to \$295,430.00. In all previous

years the late City Clerk accepted these notices and changed the assessment roll accordingly. If this course were pursued this year this large sum would also be included in the Separate School column of the collector's roll for this year, 1907, and thus further reduce the rate on the dollar of Separate School taxation. The present City Clerk is of opinion that he has not the power to place these persons in the Separate School tax column of this year's collector's roll, notwithstanding these notices because these persons are put down in the finally revised assessment roll as Public School supporters. I find and report that the present City Clerk is correct in his interpretation of the statute in this respect.

Eighteen persons who are entered in the finally revised assessment roll for 1906 as Separate School supporters are entered on this year's collector's roll as Public School supporters. This is of course wrong, and is due to insufficient care in comparing the collector's roll with the assessment roll. The aggregate assessment of these 18 persons is \$15,800.00.

5. The City Clerk in all cases where the religion of a ratepayer is given as Roman Catholic in the assessment roll, but he is not marked as a supporter either of the Separate or Public School, but puts every such ratepayer down as a Public School supporter. The Separate School Act and the Assessment Act quite clearly make it the Assessor's duty in every case where he has no special instruction as to which school to put down, to accept the fact that a ratepayer is a Roman Catholic as prima facie evidence that he is a Separate School supporter and it is his duty to put each such person in the Separate School list. If the Assessor puts down no school but R. C., only, in my opinion the City Clerk's duty is to correct it after the assessment roll has been revised. This contention is in my opinion correct, so far as the City Clerk is concerned, notwithstanding that it seems to cast an unfair burden upon these ratepayers, after having given notice in compliance with the statute and to be unjust to the other Separate School supporters, but under Section 50 of Chapter 24, R. S. O., it is within the power of the City Council if the Council sees fit, to direct the amount of these taxes to be paid to the proper School board, neither the Court of Revision nor the County Court Judge has given a decision on this point as to any one of these 71 ratepayers.

In addition to the cases dealt with in the preceding paragraph of this report, about 200 new ratepayers gave written notices to the City Clerk on 27th February, 1907, that they are Roman Catholics, and desire their taxes to be paid in support of the Roman Catholic Separate schools of this city. The aggregate assessment of these persons amounts to \$295,430.00. In all previous

7. As the complaints made by the Board of Trustees of the R. C. Separate Schools are justified by the result of this investigation, I decide that the city should pay the costs of the arbitrator according to the terms of the reference.

The arbitration was brought about by City Clerk Kent's refusal to comply with the request of the two hundred Separate School Supporters, who gave notice last February that they desired to be assessed as such on the rolls last year. Mr. Kent, as he had no power to be assessed, and that the notices were only intended to govern the new assessment. In this he was upheld by the Judge.

The total amount involved is about \$1,500 for the four years, but the city will dispute payment of this to the Separate School Board, on the ground that the Board has received the full amount of its estimate each year, and sometimes more. Mr. Kent estimates that from 1903 the Board has received \$1,900 in excess. The net result of the arbitration is believed to be that in future trouble will be prevented by the new rule, followed by the assessors. Where a person now announces himself as a Separate School supporter to the assessor, the latter, if he finds a notice to that effect on consulting his index book, regards that as sufficient. Where no notice has been given, the assessors have instructions to get the parties to sign a form. The city officials say the only difference has been that during these years the Separate School supporters have been paying a little more and the Public School supporters a little less, but the difference is only trifling.

The cost of the arbitration, for which the city has been stuck, is \$111.

PALMA TEAM MEDALS.

New York, Sept. 27.—The Executive Committee of the National Rifle Association has decided to open a public subscription to secure a testimonial to the members of the American rifle team which recently won the Palma trophy at Havana and established a new world's record. The testimonial will take the form of gold medals for all members of the victorious team.

The T. H. & B. has placed the return fare at 75 cents, good for three days, and the day could not be better spent than on a visit to this popular place. The excursion train will return at 9.30 Saturday evening. Secure your tickets to-night.

WHERE IS KIPLING?

Montreal, Sept. 27.—Rudyard Kipling, the author and poet, who was a passenger on the Empress of Ireland, which arrived at Quebec early this morning, has engaged rooms at the Place Viger Hotel, and is expected there some time to-day by the management, but up to noon had not shown up. His present whereabouts are unknown. One report has it that he, Kipling, left the steamer at Rimouski, and another that he is expected to come up from Quebec with the rest of the first-class passengers of the Empress, who are due at Place Viger station early this afternoon.

TRAINER DEAD.

Wesley Walker Contracted Pneumonia at Montreal Races.

Wesley Walker, trainer for G. E. Dudley, died at the City Hospital yesterday. He contracted a severe cold at the Montreal meeting, the weather being wet all the time the races were on, and it developed into pneumonia, and when he arrived here on Tuesday he was taken at once to the Hospital. Walker was raised by "Pa" Bradley, the noted Virginia horseman. Deceased was 35 years of age. The remains will be shipped to Providence Forge, Virginia, for interment.

The funeral of Frank Hyslop took place this afternoon from his late residence, 50 Strachan street west. Rev. P. W. Philpott conducted the services, and the pall-bearers were friends of the deceased.

TWO CASES SETTLED.

Chisholm & Logie, acting for J. A. Y. Fenton, have received a satisfactory settlement from the Ontario Lamp & Lantern Company for injuries done to his hand some time ago, by reason of a defective machine. Nesbitt, Gauld & Jackson acted for the defendants in the matter.

In the case of Gale vs. C. P. R., Chisholm & Logie also made a settlement. Mr. Gale, a young Scotchman, had his baggage lost, and he sued the company, which made promise of settlement, and shortly afterwards found his baggage. The C. P. R. settled for the costs in the case.

Sillicus—The olive branch is the emblem of peace, isn't it? Cynicus—Yes, but the olive is generally an acquired taste.

COUNTY COUNCIL.

Business of Special Session Finished In One Day.

The County Council finished its special work yesterday. Warden VanSickle has been congratulated on many sides for the business-like manner in which the Council has conducted its business

during the year, taken in comparison with some former years.

Nearly the whole afternoon was taken up in committee of the whole on finance. All the accounts applied to the road construction department.

A resolution of sympathy was passed regarding the death of Major Carpenter, who was in the Council for 11 years as well as being Warden in 1878.

Inspector J. H. Smith, asked that his office be changed and that he be given the rooms formerly occupied by the

Master-in-Chancery. He complained of the cold in his present office during the winter. This matter was left to the property committee to decide.

The Council awarded P. Bessinger and son \$10 for damages done to their farm by reason of a broken culvert.

Hamilton, Waterloo & Guelph Railway question was not brought up at this session, but it is understood that the question of the height of the bridge has been amicably settled and the subject will be dropped.
