

AIR RACES AT RHEIMS.

Tissander Won the Speed Event of Opening Day.

It Was a Great Day For Wright Machines.

None of the Machines Successful In the Wind.

Rheims, Aug. 23.—Several hours crowded with excitement late this evening saved the first day of the first flying machine race meetings from dull failure. At times six machines were for a short time in the air at the same time. They followed each other so quickly that it was impossible to keep track of them as

ROGER SOMMER, French flyer who was a prize winner in yesterday's race.

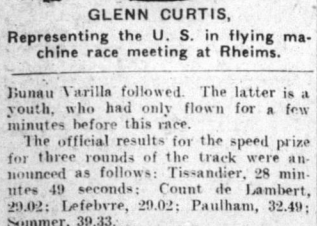

they sailed past the grand stand. Before all six had finished six others had started, raising the enthusiasm of those watching to a great pitch.

The morning opened fine, with considerable wind, but it was impossible to reach the grand stand without wading ankle deep in mud.

Nothing was accomplished in the morning on account of the wind. About 4.45 p.m. the wind dropped dead and the artificial birds swarmed out.

Latham came first in the prettiest, if not the longest, flight of the day, rounded the track twice at a great height. He did twelve miles in 18.33, thus becoming the third representative for the international cup. As he sailed away with the utmost steadiness a rainbow appeared, and it seemed for a moment as if he were about to pass over it.

In quick succession Sommer, Cockburn, De Lorange and Fournier started, following each other at a few minutes' interval. These were aloft for some minutes together. Then Lefebvre and

GLENN CURTIS, Representing the U. S. in flying machine race meeting at Rheims.

Bunau Varilla followed. The latter is a youth, who had only flown for a few minutes before this race.

The official results for the speed prize for three rounds of the track were announced as follows: Tissander, 28 minutes 49 seconds; Count de Lambert, 29.02; Lefebvre, 29.02; Paulham, 32.49; Sommer, 39.33.

This was a great showing for the Wright machine, which came in first, second and third. In fact, it was actually a Wright day, as Lefebvre's first 15-minute flight was the finest performance of the day when the wind is taken into account.

For the once round the track prize, Lefebvre established a world's record by doing the six miles in 8.58.4.5. The next best performance in this connection was that of Tissander, who made it in 9.26. De Lambert finished in 9.33, and again the Wright machines were first, second and third. Latham was fourth in 9.47.

Lefebvre's machine, which was made entirely in France, is a slightly reduced model of the original Wright biplane, its smaller area giving less resistance and consequently greater speed.

MAPLE LEAF PARK.
For the week's free show at Maple Leaf Park, Manager Burke has secured the three Jordans, who come recommended by the booking agency as one of the sensational acrobatic and trapeze acts of the season. They will perform twice daily. On Wednesday afternoon the wholesale-butchers will picnic at the park and on Wednesday night the employees of the Westinghouse Company will hold a joint outing with the employees of Thornton & Douglas. On Thursday night the Sawyer-Massey employees will be there.

MACCABEES.

Local Lodges Had Fine Picnic at Oakland.

The Maccabees' picnic at Oakland on Saturday was well attended by the members and their friends. A swimming exhibition by four members of the Hamilton Swimming Club helped to make the outing a success. The exhibition consisted of swimming, under water swimming, fancy swimming, life-saving and numerous tricks in the water. A programme of races was run off, consisting as follows:

Girls' race, 6 to 28 years—A. Gentle, Elsie Noble, G. Jones.
Boys' race, 6 to 8 years—Watson, Hayward, Elford.

D. R. A. OPENS TO-MORROW.

There Will be Over 600 Competitors on Ranges.

Rockliffe Range, Aug. 23.—The 41st annual meeting of the D. R. A. promises to be by far the most interesting held since its inception, with the possible exception of the meeting of 1902, when the Palma trophy was shot for at the Rockliffe range, and the British team shot through the matches, as well as many of the Australians. The competition between the admirers of the Lee-Enfield and the Ross rifle will be keen, and will be watched with interest, both having their quota of adherents. The fact that the Bisley men will have to conform to the rules as to the sights to be used will also be interesting, as a means of comparison between their peep sight at Bisley, close to the eye, and the fact that the sights at this meeting must be in the sight hole.

The entries number about 570, and in addition there are over 50 cadets for the two cadet matches, one with the age limit of eighteen and the other fifteen. Hamilton will have a representation of between 40 and 50. The 5th Royal Scots threatened not to enter, but having obtained Ross rifles they sent up nine men. Sunny Alberta has a contingent of 18 men, and this is largely due to the generosity of Premier Rutherford, who in addition to working hard to get a good team, personally gave \$1,000 towards the expenses. The 8th Royal Rifles of Quebec send 19, and from their work in Montreal they will be strong. The 43rd of Ottawa have 43; G. G. F. G. of Ottawa, 24, and the 3rd Vics., Montreal, 32; Royal Grenadiers, Toronto, 24.

CANADIAN DAY

Los Angeles Canucks Had a Fine Reunion.

The second annual outing of the Canadian Club of Los Angeles was held on Saturday, Aug. 14, at Long Beach, and more than 2,500 former residents of Canada joined in the festivities, that lasted from noon until late at night. It was one of the most successful reunions held this year.

The Union Jack and the Red, White and Blue were everywhere in evidence. The lacrosse match between the Los Angeles and the Shamrock teams, both chosen from the membership of the Southern California Lacrosse Association, was a feature. Jimmie McAtter, said to be the oldest living lacrosse player, was the star of the Shamrock team, making all their goals and leading his team to victory with a score of 5 to 2. The line-up was as follows:

It was a remarkable fact that every player was a member of the Canadian Club, and all but McAtter, who learned the game in England, had his lacrosse training in Canada. They came from all parts of the Dominion, from Montreal to Vancouver. Fred J. Gillespie, of Hamilton, Ont., refereed the game.

SHOT HIMSELF.

Mount Pleasant Farm Hand Attempts to Commit Suicide.

(Special Despatch to the Times.)

Brantford, Ont., Aug. 23.—Robt. Craig, a farm hand, employed by William Cleator, Mt. Pleasant, made a determined effort to commit suicide last night by shooting himself with a 22-calibre revolver. He was found in the barn with a bullet wound in his side. The bullet struck a rib and did not penetrate the lung, and he will recover. He had been despondent and had previously threatened to end his life. Craig was formerly employed at Adams' Wagon Works.

FORESTRY MEETING.

Ottawa, Aug. 23.—The Canadian Forestry Association is again giving evidence of its activity and enthusiasm by holding a special meeting in Regina, Sask., on Sept. 3 and 4 next, at which problems relating more particularly to western forestry will be discussed. The newly appointed secretary, Mr. Jas. Lawler, is hard at work preparing for the meeting, and has his programme in good shape.

SPOKE TO THE YOUNG FOLKS.

Interesting Sermon In Central Methodist Church.

That the facts of religion are real, and therefore as students we have as much right to take notice of religious as any other facts was the thought emphasized by Rev. Isaac Couch in a sermon to young people at Central Methodist Church last night. A lot of people, seemingly good fellows, did not look at it in this way, he said, and had objections—objections that were not very deep when examined. One excuse many people made was that there were a lot of fellows in the church they did not like. Mr. Couch agreed with them. The same thing might apply to singers as well as Christians, and to almost every side of life, but it was no legitimate reason for remaining out of the church. There were those, too, who objected because the church routine was monotonous and had not enough life. This was one of the very reasons why the people who shunned the churches on this account should throw in their lot with them. Mr. Couch admitted that in religious work there are many things unpleasant, but this was no reason why we should abstain from entering ourselves. Religious life, insisted the speaker, required keeping up like anything else. People could not keep it up by just dabbling in it occasionally any more than they could learn Greek or Hebrew in a week. They must make a business of it.

Many of those outside the church complained that the word of God was a dull book. Parts of it are. Some have to do with history that does not concern the world to-day. It was not a book, however, but a library of many books, and to say that all are dull is not correct. Those people who declared that they preferred Shakespeare's and Tennyson's work to the Bible forgot that these authors borrowed very largely from the Bible. After all, there was no absolute connection between the Christian life and the Bible. There were many Christians before the Bible. Discussing the doubts of young people on matters of religion, Mr. Couch declared that if we remained true to ourselves we must be right in the end. In religion, after all, the great question was not to think, but to do. Botany is not to be learned in the pages of books, but out of the leaves and flowers and the things of nature. So with religion. It was not in the things that are dry, but in human life. What difference does it make in a man when he becomes a Christian? His answer to this was that it made one a straight man, helpful to other men, a devoted citizen, a reforming politician and commercial life. Mr. Couch made an earnest appeal for the strong ones to throw in their lot with the Christian church. They should not be content to leave Christianity to a lot of weaklings.

A. O. U. W. Lodge Had Basket Picnic at Beach.

The picnic of Concord Lodge, A. O. U. W., at the piers at the Beach on Saturday drew a good crowd, and all enjoyed the outing. A game of baseball between picked teams captained by Jack Sherring and F. A. Leighton resulted in a score of 30 to 28 in favor of Leighton's team.

ROBERT REID DEAD.

One of Members of Transcontinental Commission Died Suddenly.

Ottawa, Aug. 22.—Word was received here to-day of the death last night, at Annapolis, Maine, of Mr. Robert Reid, member of the National Transcontinental Railway Commission.

Mr. Reid was born in London, Ont., and was engaged for many years in the paper box manufacturing business at that place. He was active for years as a Liberal in Ontario politics, and was appointed a member of the National Transcontinental Railway Commission in September, 1904. Mr. Reid had been in poor health for some time, but the announcement of his death came as a shock and surprise to his many friends at the capital, as he had been on the street and at his office only a few days ago.

BROTHERS DROWN.

Jack and James Hamilton, son of Rev. R. M. Hamilton, of Weston.

Hamiltonville, Aug. 22.—Jack and James Hamilton, aged 17 and 15 years, respectively, sons of Rev. R. M. Hamilton, the Presbyterian minister at Weston, Ont., were drowned at Wawa this afternoon while canoeing in the Lake of the Bays, opposite the Wawa Hotel.

Harry, a twin brother of Jack, was with them, and he clung to the canoe, which had upset, and was rescued.

Jack and James were both good swimmers, but immediately they struck the water they became excited and clung to each other and went down.

The family have been in Manitoba all summer, and were joined by Rev. Mr. Hamilton three weeks ago.

SHELLEY MAY GO FREE.

Government Inspector Geer Says Shooting Was Entirely Accidental.

Toronto, Aug. 23.—Government Inspector Geer, who returned to-day from Norfolk County, where he had been investigating the shooting of blind and aged Michael Hall, says the charge of murder against young Emery Shelley will be dropped.

"The investigation showed no evidence to support the theory that Shelley shot the man intentionally; at worst, it was criminal negligence in using a gun near the house. The Crown attorney agrees that the present charge should be withdrawn."

It is not improbable that every charge will be withdrawn under the circumstances and the boy allowed to go free.
