Schermon at freely us the sea itself, to within of the shore."

nits the con

The their relinquishment, admitting not only their attemptor, but their displity. Mr. Webter's manifesta only makes the autter tens.
The k is no contambed, that Great British has best the right to enforce such a construction of the treaty, from her previous negligences and administic of American Esterman to the waters in disput.
This argument is increable of logical approx. Because you may fill control over and privileges? In certain cases within the invidence of the same country, a party may acquire an adverse fill control over and privileges? In certain cases within the invidence of the same country, a party may acquire an adverse fill control over and privileges? In certain cases within the invidence of the same country, a party may acquire an adverse fill control over and privileges? In certain cases within the invidence of the same country, a party may acquire an adverse fill control over and privileges? In certain cases within the invidence of the same country, a party may acquire an adverse fill control over and privileges? In certain cases within the invidence of the same country, a party may acquire an adverse fill control over and privileges? In certain cases within the invidence of the same country, a party may acquire an adverse fill control over and every body knows it, and guards.
There is the international law regulating this matter? We configure the number of posses to be the only reasonable point of dispute.
The area to the third objection —the presence of a British force upon fill control over an Englishment, attribute ye called, but a privilege being being science. The writer is no parties of British authority or arrow body, in his Marthfeld crains. Nor does even the for of howers belli. The writer is no partene. We case science individual interest or reasons within the jurisdiction of their privileges. How another and the is point. Mena as endostable with the to be individued.

tions are preity searly equally divided between the United States and the British provinces. There may be a want of courtesy about this matter, but is that a well-issue; but should it happen, what shadow of justification any each issue; but should it happen, what shadow of justification are each issue; but should it happen, what shadow of justification are each issue; but should it happen, what shadow of justification are each issue; but should it happen, what shadow of justification are each issue; but should it happen, what shadow of justification are each issue; but should it happen, what shadow of justification are each issue; but should it happen, what shadow of justification are each issue; but should it happen, what shadow of justification and the United States. This view of the question must be dismissed. Now what are whose rights and merits of the present question which it was boldly courted at the outset, have move them adverted to or discussed ? They are the rights of the British American fishermen. The Co-The and aromas the patient regard for Imperial Begilation. They whole history preses, that they have and boot of Imperial Begilation and the United States accur—which may God avert—England would have to invent some other standard than she now shows, to rally and aromas the patientism and support, for the historto loyal colo-nist, to do battle in har name. The same and defrauded of his rights. The same and begiling of the further har and engine in the name. The same and defrauded of his rights. The same and defrauded of his rights. The same and defrauded of his rights. The same and begiling of the in the same.

ave to invent some other standard than she now shows, to rally ad around the patriotism and support, for the hitherto loyal colo-its, to do battle in har name. For years and years the poor British colonial fisherman has been aprired and defrauded of his rights. The same noble-minded Admiral Seymour, who made such rampt reparation for the outrage on the firing into the American isamer at Groytown, has taken up the cause of the Colonial fish-remes.

mes. A more hardy, generous-hearted, industrious and high principled is fines, exist nowhere, than this very class. What they want, hat makes them poor, is the absence of a sufficient stimulus and man for their exertions.

windows of every R. Catholic in Limenick who promised us-Mr, Russell, veve shinered to atoms by the mob, and militu-police are in recuisition in all quarters. The Limenick Re of Tucalay, contains the following, ander the heading :-City in a state of Siege :--Artillery with lighted matches and activities display as they go through the atreens with their heavy metal. Dragoons parade its streets with drawn new activities hould. The approximations to the city in wwar qua-mand by strong detachments of military and police. b, and military Limmith Repu

## LATER FROM CALIFORNIA.

LATER FROM GALIFORNIA. The steamer Prometheus arrived at N. York on Thursday last, with \$5,000 in specie and 120 passengers. Passengers from California to New York by the Prometheus, made the passage in a trifle less than 21 days, running time, including the transit of the lathmus. Business in San Francisco vras good. The mining news indicates continued prosperity. The har-vesting in many countees is progressing rapidly. In Mariposa, extreme and summary measures had been taken to drive foreigners from the mines. The tide of emigra-tion continues unabated. Nearly two thousand Chinese arriv-ed at San Francisco within the ten days previous to our ad-vices, and over one thousand in the two days immediately pre-ceding.

The news from the interior isseanty. A lump of pure gold, weighing eighty-five pounds, had been dug up on the Yuba River.

The difficulties in Mariposa between the French and Ame-ricans, still continue. A number of Frenchmen, who were driven away, had arrived at San Francisco and laid their grievances before the French consul.

grievances before the French consul. The city of Sonora was being robuilt with great rapidity. The steamer+Columbia with \$300,000 in apecie and the mails, was to leave San Francisco on the 3d July for Panama. Honolulu dates to the 3lst May give paticulars of a very destructive fire, by which Capt. B. Snow, an extensive com-mission merchant, lost property, principal'y of his consigners, to the amount of \$50,000.

about selling off their possessions and emigrating to Austrahia. General Catheart was about to make a general onslaught upon the Kafits in their strongholds. Fifty Kafitr women who had acted as spies had been captured by the English.

A more hardy, generoas-hearted, industrious and high principled of of men, exist nowhere, than this very class. What they want what makes them poor, is the absence of a sufficient stimulas and inverse American B to the point. In these praising our colonial thermen, rest assured, we offer no disparagement to the hardy and barve American Bishermen, -who leave their homes to brave the prift of the eccap, that their hearth-stones may bline a brighter welcome on their restrict. They ears for no treaty. Many of them know nothing of thermen. They care for no treaty. Many of them know nothing of thermen. They care for no treaty. Many of them know nothing of thermen. They care for no treaty. Many of them know nothing of thermen. They care for no treaty. Many of them know nothing of thermen. They care for no treaty. Many of them know nothing of the colonial thermen lives the year round within eight of the fail of his labours. Ills fishing is from open boats, or by next, within sight of his capport. Hig oreransent offers his no boasty on his eatch. -He has no takes, his all, the coly means of his export. How stands the cane ? A government express arrived at Fort Smith, Lo

The Colonial faberaram lives the year reand within eight of the fold of his labors. Ille fabera is form open boarts, or by ensite which work is not have the seas proper. How stands the case? At uges, his all, the oaly means of his support. How stands the case? At uges, and all any faberaram statement, but seas for miles the stands the case? At uges, and stall gorging faberarem level, be stated to case in allows, the theory may destroy net by satisme or the support. This is no exaggerated, oreafraw statement, but a fact which has one angle the write? a personal becarsion. They only know, that he is a substate, and the gorger the statement. They only know, that he is a substate, and the gorger the statement is a substate on the substate is a substate of the faberaram statement, but a fact which has and the case is different. The wompets then to make they as a case is different. The wompets then to make they as a case is different. The wompets then to make they as a case is different. The wompets then to make they as the case is different. The wompets then to make they as the case is different. The wompets then to make they as the case is different. The wompets then to make they as the case is different. The wompets then to make they as the case is different. The wompets then to make they as the case is different. The wompets then to make they as the case is different. The wompets then to make they as the case is different. The wompets the origon the stres and barry and the gorger and the case is the debrames and the case is and out the stres and the case is the other as the they as the case is different. The wompets the the there are not all there are the stress the case is a different. The wompets the origon the other as the substate the case is a different. The wompets the origon the other as the part of the case as the different the faberames makets, by a high different the they as the case is different. The have compets the the there are to the shore, and the gord the ereages at the tow the segnest met the sh

which the flame s spread, and the fact that all the doors open-ed inwardly, he thinks that half of those in the cabin could not have escaped. The incidents of the disaster are terrible and affecting. The roomen and children crowded together on the after part of the vessel, without any chance of escape, there being on boats present at the time, and it appears that the stea-mer was entirely deficient in this respect; the rapid spread of the flames, and the large numbers who were compelled to jump exercises of the second swim to swe their wires and children, together with the screams of anguish which filled the air, presented a scene most heart-reading. One gentle-man saved his wife and nine children by awimming with them exparately to the chore, as they jumped overboard. Edward cooper, a planter of Memphis, being an excellent swimmer, and the second his wife and nine children by awimming with them esparately to the chore, as they jumped overboard. Edward cooper, a planter of Memphis, being an excellent swimmer, and the second his wife and nine children by awimming with them esparately to the chore, as they jumped overboard. Edward cooper, a planter of Memphis, being an excellent swimmer, and the second swim to screenes asystem on their yclay was enveloped in flames, and many of the infortunate passengers were straggling in the water for life, the men fit a sloop in their yavel boot, as it was at first sup-ous to use the boot of their time in acting the trunks and boxes of the passengers, and plandering them of their contents. A farge meeting was held at the Astor House, New York, a faureday last, when stringent resolutions were passed coo-demanding an investigation of the whole affair. IMPORTANT RUMOUR FROM WASHINGTON. (By Telegraph to the Mone affair. Gaz.

London route to come to Characterovin, as it would be consid-erably shorter than that frequented at present. When there-fore, the House of Assembly again meet to divide the public money for the service of Roads and Bridges, we sincerely hope that the Queen's County and Prince County Members will go hand in hand to push this desirable work to completion.—R. Con-

THE ALBATROSS.—The Steamer Albetross arrived here on Saturday night, about half-past Ton o'clock, having on board a large number of passengers, for this place and for Quebec. On coming up the Harbor, the Steamer bore in for a breast-work, just under St. George's Battery, mistaking it, in the darkness of the night, for Pownal Wharf, and being luted by a light which shows from the House of Mr. James M'Lean, on the bank, most infortunately get aground, where she re-mained all day Sunday—every attempt to remove her from the bed of small stones and and which the great pressure of the ship made, proving fruitles. The freight, consisting principal-ly of flour, had to be taken ashore in inghters ; and the follow-ing morning at high tide, there being a good breves of wind of shore, the Steamer was got alloat, without having su-tained any damage from her mishap. She proceeded on her royage to Quebec yesterday. 5TO

# To THE HOR. GRONGE COLES,

To THE HOF. GEORGE COLES, Six: I pray you pardon the neglect that I have unavoidably been guil-ty of. It shall not occur with my good will's second time. In fol-howing up my historical remainscence, I must call your attention to the state of the treasury at the time of the edvent of Colonel Ready and the departure of his producessor, Lieutenant Governor Smith. The latter much R his host-at at least his fittends did so for him-that he had left a full, instead of an empty treasury. It is true that he did so, £4000 remained in the chest after all demands were astisfied. I will pass over the worse than foldy of kneeping so much bridges, and direct your attention to what was done with this the provide of former Houses of Assembly had bed to the passing of revenue laws, perpetual in their duration and giving to the execu-tion for the House of Assembly had bed to the passing of revenue laws, perpetual in their duration and giving to the execurs, perpetue re, the co at or question de aly and imperfect development of the re-manuscript the insignificance of its or her places, were annoth the consequence promitivitional mode of faces legislation, promitivitional mode of faces legislation.
