

WITH THE FARMERS

AGRICULTURAL LIBRARIES.

It is stated in section 3 clause 2 of the Agricultural Societies Ordinance that one of the objects of the agricultural societies shall be to encourage improvement in agriculture by the formation and maintenance of a reference library for the use of its members. The Department of Agriculture has decided to render substantial assistance to those societies which are willing to do something themselves towards the establishment of agricultural libraries. A list of books, which are given below, have been presented to the societies, together with the price at which the books will be furnished to each society. The list of books is as follows:—

- 1—Successful Farming, by Bonnie.
- 2—Feeding of Animals, by Bonnie.
- 3—Principles of Agriculture, by Bailey.
- 4—The Soil (revised), by King.
- 5—Milk and its Products, by Wing.

SEED BRANCH ENLARGED.

Owing to the rush of business of the seed branch of the Dominion Department of Agriculture, situated in Calgary, it is reported that the seed branch will be separated on the first of the month, and that a still further addition to the staff will be made about the 1st of December. The staff of the branch started about the 15th of November, and at that time the staff was 25. It is thought that the rush this season will be even greater.

Mr. Killian, is at present visiting at his home in Vankeek, Ont., and is not expected to return until about the middle of November.

CHICAGO GRAIN MARKETS.

Chicago, October 30.—During the forenoon today there was so little business there might almost as well have been none as far as speculative markets were concerned, but news regarding the wheat crop in Argentina later in the session was of such a bullish character that cobwebs already developing in quiet speculative markets were rudely swept away, and the market from that time to the close acted like a giant refreshed with wine. Wheat in the end secured 2c addition to prices of the day before, when all other important trading markets benefited in subjective ways. Argentine news was of the same general character as previous reported, but in some respects more emphatic, as to the great extent of frost damage. Strength increased to the end, December bringing 1.00c to 1.05c. As the session closed May was wanted at 1.04, indicating a gain of 3c.

FRIDAY'S GRAIN MARKETS.

Winnipeg, October 30.—Liverpool cables came lower, and the opening was generally lower, with a dull session and light trading, but a very distinct strength of tone. There was nothing really new in the situation, but as morning advanced the market was better supplied and the price was a distinct advance at the close.

Chicago gained 1/2c to 3/4c; Minneapolis 1/2c to 3/4c; Winnipeg 1/2c to 3/4c according to the option. There was an increased demand for low grades of spot wheat.

Winnipeg cash wheat—No. 1 Northern, 95c; No. 2 Northern, 90c; No. 3 Northern, 85c; No. 4, 80c; No. 5, 75c; No. 6, 70c; No. 7, 65c; No. 8, 60c; No. 9, 55c; No. 10, 50c; No. 11, 45c; No. 12, 40c; No. 13, 35c; No. 14, 30c; No. 15, 25c; No. 16, 20c; No. 17, 15c; No. 18, 10c; No. 19, 5c; No. 20, 0c.
