The Evening Chit-Chat

By MUTE CAMERON.

"In all that concerns eating and drinking, company, climate and ways of life, community of taste is to be sought for. It would be trying, for instance, to keep bed and board with an early riser or a vegetarian. In matters of art and intellect, I believe it is no consequence.

"For there are differences which no habit no affection can reconcile, and the Bohemian must not intermarry with the Pharisee."—Stevenson.

"I think we are well suited to each other because we are such exact opposites."

So I heard a woman say of herself and her fiancé.

In answer to my query as to how they were opposites, she further explained that he was light haired and she dark, that he liked to read and she didn't, that she was fond of society and he was reserved and quiet, that he liked cold weather and she warm, and several other similar differences that I cannot recall.

As to the effect of the contrast between light and dark hair on their matrimonial happiness it would be difficult to predict, but as to the effect of the other differences cited, I should think the most simple-minded could be an accurate prophet.

That is, unless he were blinded by that most foolish and misunderstood of catchwords—"the attraction of opposites."

I think that the notion that the more two people differ from each other, the more natural it is that they should love each other and be happy together, because of this law of the attraction of opposites, is a popular fallacy that does actual harm.

Again and again I have heard people refer to differences in taste and

attitude as likely to promote a happy match—"It's the attraction of opposites, you know."

If there is anything at all in "the attraction of opposites" it is, of course, in the attraction between opposites in temperament.

It may be that the phlegmatic and the highstrung, the even tempered and the impatient, the lover of action and the conservative objection-raiser, the reserved and the chatterer, get along well together, although it has always seemed to me that people of similar temperaments are quite as likely to understand and bear with each other. But the contrary of tastes should ever be regarded as a desirable condition in the Siamese-twinship of marriage, would be unbelievable if it were not so.

Similar tastes make similar interests.

And every interest which married folks share is one more bond between them, one more bond to counteract the wending power of selfishness and individual interests and the neutral tendency of all souls towards isolation.

Of course, you may point me out two people with widely diverging tastes who apparently have a happy married life.

But I can show you a blind man who is a leader in his community. And you will not think that he attained that position because of his blindness, will you? You will know that he has done what he has in spite of his handicap, not because of it.

I firmly believe that any two people with widely diverging tastes and interests are undertaking a mighty perilous voyage when they embark on the sea of matrimony together.

And I wish that that foolish catchword, "the attraction of opposites," could somehow be stricken from the language for I believe that a misinterpretation of it has caused more young folks to be mistaken in regard to their fitness for each other than we would like to reckon.

COLD IN THE CHEST? RUB WELL WITH ZAM-BUK!

For bad colds on the chest, rub the chest and between the shoulders well with Zam-Buk at night.

If you suffer from catarrh or cold in the head, just insert a little Zam-Buk at the base of the nostril, and as the balm becomes warm, inhale the healing essences which vaporize.

Sores in the nostril, which are sometimes set up by catarrh, will yield to Zam-Buk treatment.

Mrs. N. S. Babcock, of Matawathan, Ont., says: "For a long time I had a very disagreeable sore on the inside of the nostrils, which gave me great pain and caused much annoyance. I feared it would turn to cancer, and all I tried proved unavailing. I was ordered to try Zam-Buk, and I am glad to say that the sore that defied all other remedies was overcome by one box of Zam-Buk, and is now quite healed."

Zam-Buk will also be found a sure cure for cold sores, chapped hands, frost bite, ulcers, eczema, blood-poison, piles, cuts, and skin injuries generally. All druggists and stores 50c. box, or Zam-Buk Co., St. John's, Nfld. Try Zam-Buk Soap, 25c. tablet!

Avondale Notes.

Unearthing the potato crop which engaged the attention of our people during the past fortnight is finished. The crops are not even up to an average one, complaint being general of a big shortage. This will have the effect of increasing in the spring the already high price prevailing.

Appropos of agriculture, it is a deterrent circumstance that people do not endeavour to grow larger quantities of farm products, rather than to be content with a limited quantity of potatoes for family use and a balance sufficient for re-planting in spring, together with cabbage enough till the first of March. This is about to which the operation of the average land owner go in the provisions of this class of food. Turnips receive less attention than formerly, parsnips, carrots, etc., scarcely any; whereas with plenty of land, increased energy in this direction would provide a plentiful supply of all these food products for the winter, and thus lessen the consumption of other more costly foods.

It has been unusual of late years to have wintry weather in the present month, but to date this year we have had two snowy days—October 27 and 28, and to-day.

Work at the foundation site of the new church is progressing favourably. Many men are absent, and there have been a number of vacant days owing to disagreeable weather; still, notwithstanding, the job is no light piece of work, the finished site is ebbing more and more to view.

In the recent examination under the auspices of the C. H. E. we note the Superior School at Avondale is represented by five pupils in the Intermediate Grade—two in first division and three in second, with distinctions in Arithmetic, Geometry, and Mensuration, and two Preliminary Passes, Second Division, with distinctions in Arithmetic and Geometry.

A case of typhoid fever is receiving the attention of Dr. Jones at present. It is of such duration now as to satisfy the doctor that no other case outside of the same family will develop through contamination from the one under treatment.

Master Gregory Lynn, son of Captain Patrick Lynn, has entered St. Bonaventure's College to pursue higher studies. "Greg" was a very successful candidate at the Superior School in Avondale, being one of the two for the present year on the pass lists of the Intermediate Grade, in the first division, with distinction in Geometry.

Such a simple item as a lullaby is an important factor in dispelling the monotony round the family hearth; but then there must be that influence demanding the introduction of the soothing little air. With this influence Mr. and Mrs. John Moore have recently been generously supplied by Mr. Stork, who left them a dual copy of the latest edition of humanity, Mr. and Mrs. Moore are having a repetition of the congratulations received of their many friends twelve months ago, when Hymen's bond was consummated.

Fads and Fashions.

Very small handkerchiefs of colored silk, with a hemstitched border, are sold to wear in the breast pocket of one's rough morning coat. The color scheme of the costume may be carried out by this small touch in a most effective manner.

Opportunities for using lace, velvet bordered goods, fringes and filmy fabrics over silk are surely being given these days. It is again a season for all and foolish were the woman who will not avail herself of practical hints from the great artists of dress.

Lace jabots, which are very wide at the top and narrow at the bottom are made of Irish lace, of Maline lace and of imitation Venetian point. They are sold separately, so they may be pinned to the plain blouse and taken off when it goes to the laundry.

It seems strange that the favor that was denied flowers in the summer, when they were most appropriate, should be accorded trimmings of this character for the winter wear, but such seems to be the tendency, as indicated in some of the latest millinery from abroad.

Dress materials receiving first consideration are soft satins, chiffons, taffeta, twilled silk, crepe de chine.

Makes the Hair Beautiful.

At last a remedy has been discovered that will positively destroy this pest Dandruff. That Dandruff is caused by germs is accepted by every sensible person. Dandruff is the root of all hair evils. SALVIA will kill the dandruff germs and improve Dandruff in ten days, or money back. 50c. a bottle.

Patriotism

The stomach is a larger factor in "life, liberty and the pursuit of happiness" than most people are aware. Patriotism per se "is fit for treason, stratagem and spoils." The man who goes to the front for his country with a weak stomach will be a weak soldier and a fault finder. A strong stomach makes for good citizenship as well as for health and happiness.

Diseases of the stomach and other organs of digestion and nutrition are promptly and permanently cured by the use of DR. PIERCE'S GOLDEN MEDICAL DISCOVERY. It builds up the body with sound flesh and solid muscle.

The dealer who offers a substitute for the "Discovery" is only seeking to make the little more profit realized on the sale of less meritorious preparations.

Dr. Pierce's Common Sense Medical Adviser is sent free on receipt of stamps to pay expense of mailing only. Send 31 one-cent stamps for the paper covered book, or 50 stamps for the cloth bound. Address World's Dispensary Medical Association, R. V. Pierce, M. D., President, Buffalo, N. Y.

METHODIST CHURCH UNION VOTE ORDERED.

Question Goes to Boards in February and Members in April.
Toronto, October 20.—The question of church union will be submitted to the official boards and the membership of the Methodist Church within the next six months. The General Conference special committee at its annual meeting directed that a vote be taken by the official boards not later than the third quarterly meeting of the boards in the conference year; that is, in February, and that a vote for the membership shall be taken not later than April 15. Three questions will be on the ballot papers:—
1. Are you in favor of organic union with the Presbyterian and Congregational churches?
2. Do you approve of the proposed basis of union?
3. Have you any suggestions or alternatives to offer?

The United States Authorities have Removed the Duty from Solignum.

This is indeed a triumph for a British Preparation when a foreign country, with a Protective Tariff like the United States, removes the duty from a British manufactured article, it is not a case of "pull" with the authorities, but a case of real merit. This speaks for itself. And Solignum is only
