Big Crowd at Nickel.

The Nickel Theatre last evening was crowded and all present were was crowded and all present were charmed with the programme. It was one of the finest given for some time. The Gaumont Graphic showed a dozen or more different subjects, including "A Lady Fancy Skater." "The Floods on the Thames," "The Thames." "The French Aviator, Henri Guerie," "Paris Fashions," "King George leaving Delhi." "A Sword George leaving Delhi," "A Sword Dance in India," and several others. The next reel was entitled "His Les-son" and was watched with the greatest interest. It is a pretty domestic drama. "Every Rose Has its Stem" is an attractive love story which pleasing to both young and old. Dreams Come True" is a most laugh-able comedy which kept the audience in the best of humor. The pictures will be repeated this evening; there

Careless Packing.

Dealers in the article and grocers have noticed of late that some saltravention of the law. Salmon have been opened which were unfit for food and the reason was quite ob-vious. The fish were very stale before being packed and were salted to such a degree that they resembled pickled salmon more than fresh. Not alone this but in some time one or two ounces of salmon appeared the rest being trout or other fish. We direct the attention of the Fishery Department to this matter. It is un-Brigus, to take supplies to his stations on the Labrador. She is now loading coal at Harvey's premises.

Frost, Snow and Ice.

Mr. John Way and his three son rrived here from Flower's Cove couple of days ago to get winter. They travelled 60 miles Port Saunders to connect with the Meigle, and they say before they left snow storms were frequent, that it was very cold, that the harbors an ponds were still frozen over and that people crossed the lakes with loads of wood brought from the country, the ice being perfectly safe.

The Furness liner Digby, Capt. Trinick, reached port at six o'clock last evening from Halifax, after a passage of forty-three hours and a half. She brought 120 tons of cargo and as passengers:—His Grace Archbishop Howley, Rev. Dr. Greene, J. Thompson, Mr. Wildman and H. Haley The Digby sailed for Liverpool to-day taking an outward freight and one additional passenger Mr. Mitcherson.

LOOSENED Dunlop Traction I We claimed from the first that Tread was the only real anti-skid tire obtainable. this tire has done To you think in view of what that we claimed too much? If you manufactured an automobile tire along new lines and, after the tire was about a year old, it went through the most gruelling of tests with flying colors, wouldn't you be as proud of it as we are? I Remember, we didn't have to subject Dunlop Traction Tread to such a test because the tire had made good with a vengeance on the basis by which all other automobile tires are being judged-that of everyday service and anti-skidding. I Now, you know as well as we do that any and every kind of test thought of by man or enacted by nature, must come up in an acrossthe-continent tour. Railroad tracks, gumbo beds, cordurey roads, worn-out trails, sand hills—these were some of the seemingly insurmountable tests which met the pathfinder, but Dunlop Traction Tread survived them all. In the face of such a tire triumph can any motorist deny that Dunlop Traction Treads offer him the most of that which any tire can be expected to give, and further, can you as a motorist conscientiously afford to invest your money in anything less?
