Limited,

revolutionaries, who held brief power, transferred great sums to Sweden in expectation of the time when they would have to pack up their traps and flee. It is said that one Swedish bank alone holds ten million sterling in Russian gold in this way, and very properly refuses to yield it to the original depositors, who most certainly stole it.

Perhaps the Allies have as good a claim on these deposits as anyone, seeing that Russia owes them—rather, England—some hundreds of millions.

When you want something in a hurry for tea, go to ELLIS—Head Cheese, Ox Tongue, Bottled Ham, Cooked Corned Beef, Bologna Sausage.

Frying pans should be wiped with clean tissue paper before they are washed. In this way there is not so much grease poured down the drain. We all know that enough grease will stop up a drain.

## A Shell-Shocked Soldier

Tells of His Remarkable Experience with  
Dr. Chase's Nerve Food

MR. FRED K. SAUNDERS, 66 Euclid Ave., London, Ont., writes: "After having returned from the front with shell-shock, and while still in a nervous condition, I met with a painful accident due to a fall from the top of a ladder, striking my back on the edge of a desk, which confined me to bed for three weeks. After the sprain had been reduced and the pain eased so that I was able to be around, I was obliged to return to bed, suffering a complete nervous breakdown. My regular physician attended me until the middle of September, without results being in any way satisfactory.

"My nights were spent in tossing about the bed worrying about the future, which looked so black. The continual loss of sleep caused me to become light-headed, so that I would say and do things quite irrational. My heart action became quite deranged, together with my stomach and digestion. My skin and the whites of my eyes became yellow. My kidneys were deranged, and when I would try to get up every thing would go black in front of me with dizziness, and I would fall if nobody was near. Following these dizzy spells I would become so weak, and a sickening feeling of faintness would creep over me, so that for two or three hours afterwards I would be helpless, and my head would ache almost to the point of splitting. Nothing seemed to help these weak spells. I became so irritable that to speak to or answer anyone, even my wife, in a decent manner seemed almost a possibility.

"Last day of October sent me to Dr. Chase's Nerve Food, and my wife and I both described in this letter the experience by many people who will appreciate Mr. Saunders' thoroughness in writing so fully of his case and pointing the way to cure. Dr. Chase's Nerve Food, 50c a box, six for \$2.75. All dealers, or Edmanston, Bates & Co., Limited, Toronto.

Dr. Chase's Medicines are sold by all Druggists and Dealers in Newfoundland. Wholesale from GERALD S. DOYLE, St. John's, Distributing Agent.

## Jewelled Typewriter.

Perhaps the most up-to-date typewriter is one perfected by an American inventor. It is believed to be the finest and most convenient machine made. But the improvement that really recommends it is a special feature by which the person using the machine can tell at any time how many words have been typed. The machine of these parts and mechanisms is certain to be expensive as it appears on the market, but could not be more costly than the portable typewriter which was produced some time ago to the extent of Russia.

This machine was also in America. It is probably unique. All the

parts which are usually black were a bright blue, and great ingenuity had been used to get in as much colour as possible. Mother-of-pearl and precious stones were encrusted in an artistic design on the frame, while the keys were made of African ivory and solid gold.

The Chinese Ambassador to the United States, Li Hung Chang, is the owner of another luxurious typewriter. It is fitted with Chinese characters, and has over one thousand eight hundred keys, each of which had to be hand-engraved as there were no dies of the Chinese characters available.

Evening gowns have a new rule: very low fronts and very high backs.

## What He Feared.

Little Adam had shown marked interest in the sermon which had been about the creation of Adam and Eve. After church the little fellow partook most heartily of the family dinner. Having satisfied his internal craving he retired to the privacy of his playroom.

Half an hour later his mother discovered him sitting in a corner with his hands pressed tightly against his ribs and a look of acute horror upon his small face.

"Why darling whatever is the matter?" asked his mother. "Oh, mama," sobbed the little fellow, "I am so frightened. I am afraid I am going to have a wife."

## Double

the richness of ordinary milk

CARNATION Milk—as it comes to you—has double the richness of ordinary milk.

It is fresh, rich milk—evaporated. Water is taken from it.

When used, therefore, as ordinary milk—for example, as a nourishing, satisfying drink for the children—you should add an equal quantity of water.

For cooking—where you have been using skimmed milk—you may add even more water to Carnation Milk.

But for tea, coffee, fruit or cereals, you can use Carnation Milk as cream—just as it comes to you. It whips splendidly.

Now is not a day too soon to try Carnation Milk—the handiest and most economical way to buy milk. You can order a week's—a month's—supply ahead, with your groceries. Directions on every can.

Carnation Milk keeps for several months in the can, for several days when opened. Keeps—because it is sealed safe and sterilized. Contains no preservatives, no artificial sweetening.

## Annual Report.

Of the Officers of the Longshoremen's Protective Union.

Your Officers, in presenting the Annual Report for the year about to close, avail of the opportunity to point out the splendid record of the Union in the number of members who responded to the call of duty in the Great World War, many of whom made the Supreme Sacrifice, while others have returned bearing the marks and scars of battle in conflict with the foe. It was indeed a source of pride and gratification to all when victory crowned the efforts of the Empire and its Allies. The signing of the Armistice in November, last, has relieved the world of the tension which it has been under during this four and a half years of strife and suffering. We feel assured that we voice the sentiments of all in saying that the principles for which the members went forth at duty's call should not be lost sight of when the terms of peace come to be written, and that those who are engaged in the work will not barter away the fruits of victory purchased at such sacrifice in human life: that people shall under its terms be free to work out their destinies, uncontrolled and unfettered by the dictates of national, commercial or political expediency.

During the past year, considerable attention was given by the Union and kindred trades and Labor Organizations in order to find a solution for the proper housing of the working classes; but although the evil is crying aloud for a remedy, and working men and their families are living under conditions that are neither conducive to health nor the proper upbringing of future citizens, suppleness and influence are displayed by politicians who appear to neither know nor care what the lot of the worker or his family may be.

Some time ago a Bill was introduced into the Upper Branch of the Legislature for the purpose of protecting the tenant from extortion at the hands of rapacious landlords and to protect those who pay their rent from being thrown on the wayside. This Bill passed this Branch of the Legislature and was sent to the House of Assembly for its concurrence of that body. Notwithstanding the urgency and the crying necessity for its immediate enactment, nothing is done to that end, but an attempt is made to strangle it by referring it to a select committee. We feel justified in the statement that an attempt is being made by those who want the people elected, to strangle this Bill, because the Committee has had ample time to make its report, but have failed to do so. If the time whom are not asking that the law be made permanent, but only temporary in order that means may be found, in the interim, to solve this problem.

We are pleased to state that the Club Rooms have been availed of by members to a greater extent than in the past, and your Officers hope to be able to provide more accommodation in the near future.

It is with pleasure that we record the fact that members employed in the loading and discharging of steamers have been granted an increase in the wages heretofore paid. We deem it but right to state that representatives of the Union in a conciliatory spirit, with the result that an agreement satisfactory to both parties was arrived at. During the past year, the Union's relations with the different employers of labor have been of a harmonious character. This is as it should be, because the true interests of capital and labor are harmonious not antagonistic, and it is our earnest wish that these happy relations may continue in the future.

It is with regret that we have to recall the largest mortality since the Union was organized. Fifty-six members and 29 wives of members passed to the Great Beyond, the high death rate being due to the epidemic of influenza. We are of opinion that if means had been provided where the stimulants in the nature of alcoholic liquors could be readily and at not a great expense obtained, many who have passed from our midst would now be with us. While all recognize that it would be a mistake to return to the days of the open bar, nevertheless we feel that the present prohibitory law is entirely wrong in principle. Substitutes are sold that are destroying the health and physique of hundreds. The ravages of dope are growing to an alarming extent. What is needed is some sound, sane law, with regard to the sale of alcoholic liquors, otherwise the evil which the originators of the present prohibitory measure sought to eradicate will be intensified in a much greater degree by the creation of an army of dope users who will in the very near future become a burden to themselves and the community.

The financial position of the Union is of a highly creditable character. The receipts for the past year amounted to \$10,662.50, and the expenditure to \$10,661.52. Of this amount, nearly \$5,000.00 was paid out in mortality benefits.

Your Officers desire to place on record their high appreciation of the services rendered the Union during the past year by its sincere friend, the Hon. M. P. Gibbs, K.C.

Your Officers also desire to place on record their appreciation of the hearty co-operation of members in the work of the Union, and to thank the Press for courtesies extended them during the past year.

Respectfully submitted,  
(Sgd.) JAMES J. McGRATH,  
President.

FREEMAN MOORES,  
Financial Secretary.

May 22, 1919.

## West Coast Notes.

The herring fishery in Bay of Islands this season has been abandoned, owing to market conditions for the fish and the high price of salt, nets, etc.

A number of men from points in Conception Bay went to Port au Port by Friday's No 1 express to work at the lime quarries of the D. I. & S. Co.

Two sawyers for the St. Lawrence Timber Co. arrived at Curling on Friday, and proceeded to Lomond, Bonne Bay by the Company's motor launch on Sunday.

The people of Bay St. George

have begun the herring fishery operation, in the hope that the market conditions later in the season will be more favourable than at present promise.

Apron Sale in Parish Room, Synod Hall, next Tuesday afternoon. The Women's Association will supply your needs in the Apron line, well made and of good material; also Candy and pantry dainties and delicious afternoon teas served.—m23,2i

Heavy black silk jersey suits are embroidered with tan-colored silk. Fashion demands the bloused back and flat front.

## A Pious Wish.

To his keen commercial ability, the new L. & N. W. Railway chief, Mr. I. T. Williams, adds a rare sense of humor, and tells an amusing story of the tourist in Ireland who left the train at every station and went ahead to the luggage van to ask if his trunk was safe.

After the sixth time the exasperated guard replied:— "Begorra, I wish the Lord had made ye an elephant, instead of an ass, an' then you'd always have your trunk in front of you."

Mildred's Liniment Cures Diphtheria.
