

In Pursuit

Japanese Cavalry Chasing the Empress.

Her Person and Treasure Protected by 30,000 Troops.

China Wants to Open Negotiations for Peace.

London, Aug. 20.—The Japanese cavalry has left Peking in pursuit of the dowager empress and her court, according to telegrams from the north received at Shanghai by Chinese officials. These dispatches aver that the empress and her treasure train, protected by 30,000 troops, have already arrived at Wu Tai San, in Shan Si province. The field telegraph north of Yang Tsun is interrupted, and nothing under Peking date appears to have reached Yang Tsun since Aug. 17. Heavy rains have been falling in the province of Pe Chi Li.

The landing of the British troops at Shanghai is not causing excitement among the natives. A detachment of 400 French marines landed there today.

A customs cruiser is reported to have gone to Tien Tsun to take away the foreigners rescued from Peking.

SAID TO BE STILL IN PEKING.

Berlin, Aug. 20.—The foreign office has received a dispatch from the German consul at Che Foo, under today's date, saying the dowager empress was believed to be inside the palace at Peking, and that the allies were still bombarding the fortifications.

FIGHTING GOING ON.

Washington, Aug. 20.—The bureau of navigation this morning received a cablegram from Admiral Remy, dated Taku, Aug. 19, which says: "Authentic reports from Peking, 15th, from Lieut. Latimer. Troops moving on imperial city. Clearing out Tartar city. All Americans who remained in Peking are well, except one child. Reported from Chinese sources that the royal family have escaped, and are en route to Sian Fu."

For Peace.

CHINA WANTS NEGOTIATIONS BEGUN.

New York, Aug. 20.—A dispatch from Washington to the Herald says President McKinley is considering the advisability of proposing to the powers the organization of an international congress, which shall sit in China, and recommend to the several governments represented a permanent solution of pending questions.

The Chinese Government, through Li Hung Chang, has made application to the United States for the appointment of Minister Conger or some other American official, with authority to open negotiations for the establishment of peace, and for fixing definite terms for the settlement of the present trouble. The application came to the Chinese minister today and was taken by him to the state department.

ALL THE POWERS APPEALED TO.

Li Hung Chang's application expresses willingness to conduct the negotiations at a point desired by the powers, and it is expected that this will be Peking or Tien Tsun. A similar application has been made by Earl Li to all of the powers interested. His suggestion of Minister Conger as the American commissioner is based on the idea that as Mr. Conger has been rescued he has now the opportunity to proceed to the point where negotiations will be held and conduct them. The application does not suggest any particular terms, nor does it ask for the withdrawal of troops. It requests that the negotiations shall be for the purpose of bringing about a cessation of hostilities.

PROCEEDINGS ABANDONED.

Toronto, Aug. 20.—When the hour was reached Saturday afternoon for the oft-postponed examination of Hon. Mr. Dryden for discovery in connection with the protest against his election in South Ontario, counsel representing the petitioners again asked for an enlargement. This was granted. In reply to a question, Mr. Edmund Bristol, who has charge of the petition, said he did not think it would be proceeded with any further.

SUICIDE OF AN EXETER MAN

Hanged Himself of the Woods—Peculiar Case of Drowning—Other Casualties.

SAD ENDING.

Exeter, Ont., Aug. 19.—This morning, while in a fit of despondency, brought on by long illness, John Vail, of Exeter North, committed suicide by hanging himself in a tree in John Blackford's woods. It appears he arose early, and did up his work at the barn as usual, and, not returning at the usual time, Mrs. Vail became alarmed. Search was made with the above result. Mrs. Vail has the sincere sympathy of the community.

UNKNOWN SUICIDE.

Toronto, Aug. 20.—While passing through a ravine near Indian avenue, near the Park, Saturday, Fred Hampton discovered the dead body of a man. Examination showed a bullet hole just behind the right ear, and near by lay a revolver, with which the stranger had evidently committed suicide. The body was that of a well-developed man, of about 35 years of age, 5 feet 10 inches in height, with a dark brown mustache. In his hat were the initials T. C. His clothes bore the mark of a Cincinnati maker. In his pockets was \$35 in American currency. The body was taken to the morgue.

DROWNED WHILE BATHING.

Toronto, Aug. 20.—Sydney A. C. Greene, manager of the General Advertising and Publishing Company, was drowned while bathing near Hanlan's Point, Saturday night. He took cramps and sank, but rose to the surface and managed to keep himself afloat enough above the water to cry aloud for help. His cries were heard by his father and sister, who were standing on the veranda of their cottage. The father notified some young men who were canoeing near by, and after a few minutes' search of the party the body was recovered. These doctors worked over an hour, but without avail. Greene was 35 years of age and leaves a wife and one child.

A SECTION MAN KILLED.

Milton, Ont., Aug. 20.—As the 5:22 train was coming into the station Saturday evening, Wm. Howson, one of the Hornby section men, was standing on the track. He glanced around to see the approaching train, but before he had time to get off the engine struck him. He expired in a few minutes.

BROKE THREE RIBS.

Toronto, Aug. 20.—During the Wild West Show at Hanlan's Friday afternoon, the broncho ridden by Texas Marshall bolted and running into the stand from which the announcements are made, knocked Colonel Sewell, an employee of the show, off his perch. The colonel had three ribs broken.

LOST A FOOT.

Guelph, Aug. 20.—Edward Hower, an employee of the Bell Organ and Piano Company, met with a serious accident Saturday. Hower intended going to Burlington on the Bell excursion, and while waiting for the train he had occasion to go to his house for a parcel. The train had started before he returned. He attempted to board it while it was in motion. He slipped and fell under the wheels, and one of his feet was completely taken off above the ankle. He succeeded in rolling over, thus saving his other foot.

MERE ASSERTION.

The mere assertion of facts does not serve to convince the majority of people. We much prefer that you should visit our store, see our stock and general display of goods that go to make up a first-class drug store. INSECT POISON HELPED HIM.
Albion, Mich., Aug. 20.—Wm. Eggleston, of this city, has been suffering from a severe sore throat. Last night he arose in a dim light to gargle it with a carbolic acid preparation and, finding a bottle, performed an operation which relieved the pain, but left a queer taste in his mouth. His wife investigated, and found that he had used a bottle of insect exterminator.

Mr. Eggleston's throat, however, is much better.

THE WEATHER TODAY—Mostly fair; warmer.

A QUIET WEEK

In Canadian Business Circles—Crop Prospects in Ontario Are Bright.

Toronto, Aug. 20.—Bradstreet's trade review, weekly summary:

Trade at Montreal the past week has been rather quiet. A good many travelers as well as merchants throughout the country are holidaying, and this has interfered with fall business. The harvest operations, too, in various parts of the country have contributed to the dullness of trade, which is usually experienced at this time of the year.

The outlook for business in the Province of Quebec and in Ontario is quite satisfactory. Values of staple goods are firm. Payments are rather backward.

In Toronto the hot weather has distracted attention from business, and many people are now taking holidays. The amount of orders booked so far for the fall in this province is very satisfactory, compared with previous years, and the outlook for the balance of the season is very promising. Values continue firm for leading staple goods, and there is no probability of any more concessions being obtained in prices. Country remittances are fair.

Reports of the harvest received by business men of Hamilton are exceedingly encouraging, and the outlook for the fall trade is very promising. Trade in wholesale circles is rather light, as is usual at this season. Values continue firm. Country remittances are fair.

At the Pacific coast cities there has been some improvement in wholesale trade, as a result of the activity in the northern trade, and the end of the fishermen's strike being reached. The retail trade is fair, and the outlook for wholesale trade is more encouraging. Payments are only fair.

London—Business at London has been fair for this season. The sales to the retailers for the fall by the jobbers are satisfactory, and larger sales are looked for when the splendid results of the Ontario harvest becomes better understood. Values are steady. Payments are fair for this season.

At Winnipeg business has been quiet owing to many business men being away on holidays. Country retailers are still very cautious in their purchases, owing to the unsatisfactory results of the harvest. Payments are slow.

When you say your blood is impure as the result of the activity in your need of Hood's Sarsaparilla. Begin taking it at once.

Minister Wu, according to Cape May advices, is beginning to show the strain under which he is laboring. He is pale and looks worn and tired.

AFTER THE FIRE

Replacement of the Eddy Company's Works at Hull.

Ottawa, Aug. 20.—Remarkable progress is being made in rebuilding and re-equipping the pulp, fibre, paper, bag, indurated ware, woodenware and saw mills of the Eddy Company at Hull. The large machine shop, smithy and carriage shop are already in full day and night running order.

The match factory is complete, the machines arriving so that the oldest branch of the Eddy Industries is ready to start in full swing in a very short time.

The walls are repaired and new roofs are on the "Jumbo," and another enormous warehouse, both already pretty well stocked with paper, bags, matches and woodenware that the sturdy competitors of this enterprising concern are nevertheless gladly supplying them with to enable them to hold their trade and keep their customers going in these lines until they can produce them as of yore.

The No. 1 pulp mill is ready for the Olin Scott grinders and the Baker & Shevlin screens, just arrived, are being put in place.

The sulphite fiber mill, which at the time of the great fire was being got ready to produce double its former capacity, and which was the only mill not consumed, is now completed, and is turning out some 35 to 40 tons of fiber per day.

In "B" paper mill the foundation piers and plates are in place and the building ready to receive the two wide Pusey & Jones news machines, which are expected to be set up in about a month.

The "C" paper mill, where the Bagley & Sewall foundry and the new

bag machines are to be placed, is well forward. The piers and plates are in, ready for this machine, which is guaranteed to be delivered next month, shortly after which the paper bag machinery is expected to be ready to turn out bags.

At "A" mill, where the big No. 1 mill formerly stood, and which is hereafter to hold four machines, the foundation walls are going up. Work is starting on the piers for the machines, the contracts for which will probably be let at once, as representatives have been at Hull from the Bagley & Sewall Company, the Beloit Iron Works, the Black & Clawson Company, the Moore & White Company, the Pusey & Jones Company, et al.

The smaller sawmill is completed and the machinery being installed. The larger sawmill is ready for the roof.

The wood-working shop is finished and already nearly filled with machinery.

An entirely new equipment for the fall factory has been bought, and will be in place within a few weeks, so altogether it looks as if the result of the consuming conflagration in April will be that the Eddy Company's mills will produce at least 40 per cent more pulp and paper than formerly, and as if, in fact, they would soon be on the market again with goods in all their lines of manufacture and in increased quantities all round.

A CURE FOR COSTIVENESS.—Costiveness comes from the refusal of the excretory organs to perform their duties, regularly from contributing causes, usually disordered digestion. Parrelle's Vegetable Pills, prepared on scientific principles, are so compounded that certain ingredients pass through the stomach and act upon the bowels so as to remove their torpor and arouse them to proper action. Many thousands are prepared with testimony to their power in this respect.
