No One Around the City Hall Lace Said to Have Been Sold as Rich Irish Was Bought in Appears Able to Answer. London and Is Declared To Be Worth About

What constitutes repairs to streets? That question is puzzling the aldermen these days, and it will probably result in some definition being made of the term "repair" by the council in the near future.

Ald. Tancock, acting mayor today, declared that there were other streets in the city that needed repairing as much as Mapie street, on which a running load of gravel has been put. He did not consider this a matter of repaire, but the making of a new street, and as such should be pald for by the property owners. If the board of works are going to repair Maple street that way, they should repair them all, Ald. Tancock says.

"I think the council should define what repairs constitute," he stated to The Advertiser. There is nothing definite as we are now, and as a result there is much confusion."

"I am in doubt as to what actually constitutes repairs," said City Engineer George Wright. The instructions I have received from the council are not very clear, and I should like to have them made definite."

## NO QUARTERS WERE PROVIDED FOR LAWYERS

Local Legal Men Are Up in Arms Over Treatment at Court House.

The members of the Middlesex Law Association are greatly dissatisfied with the arrangements made for the law library during the construction of an addition to the court house, and as an addition to the court noise, and as a result of a meeting held a couple of days ago, Dr. A. O. Jeffery, K.C., has communicated with the county engineer expressing the feelings of Middlesex barristers in no uncertain terms. The letter follows:

"The trustees of the Middlesex Law Association protest against the proposed action of contractors under your supervision in entering into the room assigned us for use of our library. The removal of walls and other changes will interfere seriously will our use of the same, and the exposure to the elements, together with dust and dirt, will injure our property. You should have provided temporary quarters and had books removed under the supervision of our librarian, and should do so now before anything is touched. We are entitled by law to proper accommodation, and must have it. Yours:

For this purpose there is a sum of \$24,000,000 inclosed in the Julius Tower in Spandau. But the Government has for a long time past been of opinion that this sum would prove wholly inadequate, and that it will be necessary to increase it.

Recently the director of the Bank of Germany declared that in his opinion the German banks would not be able, in case of way, to supply the necessary sums to the army, because as soon as it was known that war was imminent the depositors would besiege the banks in crowds and withdraw their money. In these circumstances he suggests that the war treasure in the Julius Towef should be increased to \$60,000,000. Tower in Spandau. But the Govern-

May Be Held Outside of Court House.

The schedule of courts to be held in Ontario during the autumn and winter season have been received at the court house from Toronto, showing that the fall assizes will be held in London before Mr. Justice Clute commencing on Oct. 2, while the winter sitting will commence Tuesday, Jan. 9, before Mr. Justice Meredith, chief justice of common pleas. There will also be a non-jury sittings of the high court commencing on Nov. 20.

It is not known who will preside at this session, but a list of courts has been prepared for the successor of the late Justice MacMahon, who has not yet been appointed.

May Move Courts.

Just where the courts will be held in London for the next few months is a matter of question, as the alterations at the auditorium at the court thouse will not permit of the occupation of the room for some time. The judge is empowered to order the sheriff to secure better quarters at any time, even if the place should be arranged temporarily, so the county use.
