[Staff Correspondence.] Hensall, Jan. 22.—Hensall has risen Phoenix-like" from the ashes of the re which destroyed part of the busness section of town more than a ear ago. It's a shame to drag that old Phoenix out so early in the ear, but people up in Hensall say that the thing is really true for once In fact, according to the aptimists. the town has out-Phoenixed the original Phoenix itself. Should you be inclined to doubt this statement they TOLD IN WINDSOR inclined to doubt this statement they will take you out on the street and point out to you two modern stores first-class new hotel, where some months ago were only ash heaps. Then they will endeavor to ex-plain just how the new town hall will look when completed, and will indicate the locations for the hydrants to be attached to the new waterworks sys

New Waterworks.

That same new waterworks and own hall is a pretty big question just now in Hensall. The town hall is perhaps the most urgent of the two, and is the one which the 1912 council will

be likely to grapple with first. For some time the town has rented building belonging to George Joint, candidate at Monday's election for he office of councillor, as a combined fire hall, council chamber and lockip. Now the people want something etter, and it is likely that this year's council will introduce a bylaw providing for the construction of a pro-

er hall. Just at present there is a hot political fight centering about the building doing duty as a hall. Mr. Joint, the owner, has deeded the place over to his wife in order that he may not be The evidence of Dr. Jenners was his wife in order that he may not be most damaging to the defendant, and disqualified from becoming a candithroughout its recital the crowded date for municipal office because of the right to qualify even yet, but Mr. trary, and is going right ahead. Argument on the question is very keen, and most of the town has taken sides one way or another.

Majority Required. Just why there should be such a contest for this office is due to the fact that there is a struggle on between the members of last year's conncil and "new blood" candidates to secure a majority on the new body. Of the old councillors, C. F. Bush and wife was only having an attack of John Barry were elected by acclama-The next time Dr. Jenners called he found Mrs. Knight very low, with tion. After Stock-Taking Clearance Half Price and Less Tuesday

Such clearings as above, which have been advertised from day to day since the first of the year, and which have paid handsome dividends to shrewd and economical buyers who have been following them up, are nearing the end of the line, as most all departments have now had a most thorough searching and clearing of all odds and ends and surplus stock. A few sections still remain, which are now being adjusted, and by the end of the week little will be left unfinished so far as these sales are concerned. The Ladies' Ready-to-Wear Waist Section, as

mentioned above, offers for tomorrow the greatest price reductions of the season in order to clear every odd line in one day, and in looking over the lines one would judge that an hour or two in the forenoon would be sufficient to dispose of all at the very low prices they are marked, as cost or value has not been taken into consideration in any case. They are priced to clear, and to clear quickly as the lists below will bear out. The quantities in some lines are not big. Only 26 flannel and 23 handembroidered.
