APPEAL BY PASTOR FOR SUPPORT FOR THE B. M. E. CHURCH

Rev. H. D. Wright Tells Centennial Congregation History of Afro-Canadian Parish.

Rev. H. D. Wright, pastor of the B. M. E. Church on Grey street, made an appeal in Centennial Methodist Church on Sunday morning for assistance in keeping his congregation from becoming smaller in numbers. The fact that the colored population was not in-

church was established after much effort and sacrifice. Fugitive slaves were mainly responsible for its foundation. Rev G. R. Blount, he added, was the builder of the present church.

that many of the younger generation were leaving the city to obtain work in other places because they could not get suitable employment here was nas the reason for the weakening of the congregation numerically.

During the service, which was conducted by Rev. H. T. Ferguson, pastor of Centennial Methodist, an offering was taken and a substantial amount realized for aid to the B. M. E. Church was taken and a substantial amount recited in 1867.

Rev. Mr. Wright said that the first church started here by the colored residents was on Thames street between Horton and Simoos streets, about 1856. They continued to worship there until 1867, when the present time it is only half that time the congregation number 106, but at the present time it is only half that time the congregation of the colored residents of London returned to the United States or went to other parts of Canada.

The speaker declared that the charch was established after much effectively was endered to the members of the was unveiled by Llove was u

Lieut.-Col. Shannon spoke on "Devo ion to Duty," and sketched a history of the part played in the war by soldiers of Canada, and related personal experiences of devotion, gained through the years of service in the front-line trenches. He eulogized the boys who left the First Methodist Church for service, and congratulated the congrega-

Tributes." The latter were accorded all ranks, and nursing sisters in particular, the speaker in reminiscent mood citing several cases of devotion of these women during trying conditions at No. 3 Stationary Hospital on the Island of Lemnos. "The tablet has been the time-honored custom of establishing a memorial," he said. "Through the ages it will go down as a tribute. It is typical of the sentiment of this pulpit and of the homes of this community. Of these men, from this congregation, 37 qualified for commissions, and 36 became non-commissioned officers. Nineteen sealed their sacrifice with their life blood. It is a testimony never to be forgotten." **BOY LOSES HAND** IN ACCIDENT AT **COLLEGIATE SITE**

Walter Gibson, 8 Years Old. Suffers Serious Injury When Engine Falls Over.

Walter Gibson, son of Edward Gibon. 288 Talbot street, an engineer em ployed by the construction company erecting the new Collegiate Institute had his left hand so badly crushed under a gasoline engine Sunday, about As we who are left grow old; Age shall not weary, or the year connoon, that it had to be amputated.

The boy, who is eight years old, had accompanied his father to the Collegiate grounds where Mr. Gibson was making some slight repairs to the engine, to have it in readiness for use today. The engine, which weighs about 800 pounds, was raised up on a sort of platform, which collapsed, letting the heavy piece of machinery fall on the boy's hand, which was crushed up to the wrist. Dr. D. C. McFarlane was called and decided taht there was no hope of saving the hand. The amputation was per formed at Victoria Hospital, where, this afternoon the condition of the little patient was reported to be satisfactory.

Do you suffer from headache? Do your eyes tire? It is a signal of overwork. Perhaps, unconsciously, you strain your eyes. Good eyesight is not always strainless sight. Eyestrain with good vision is a most common and dangerous form of eye trouble.

Don't tamper with the precious gift of eyesight. Heed Nature's call for help. Have your eyes examined. What you need is proper glasses. They work wonders for the eye and usually tone up the whole physical system.

We have all the facilities for testing the eyes and fitting glasses.

Why not see us about it tomorrow?
