BOARD OF EDUCATION RECEIVES TWO CHECKS

Members Received Money From Several Unexpected Sources in Past Week.

While the past week brought its full share of disappointments to the board of education as far as its building program and estimates were concerned, it has also been a profitable one. Revenue in varying amounts has come out of several sources, some of which were unexpected and others forgotten.

Latest among the gifts of good fortune received by the board were two checks, one from the department of education for \$600, and the other for \$562.65 from the county of Middlesex. The \$600 was remuneration from the department for the use of rcoms in public schools for the training of Normal students, while the other check covered fees for county pupils who attended city schools in 1922.

Remuneration from the department ame as a pleasant surprise for the training Normal school pupils in pubhic schools for a full year. It has' now been learned that the amount covers only one-half year, and that

The check for the county was fully fifteen county pupils, who are attending Empress avenue school. Charles street school and Riverview. The cost for each pupil was based first six months of 1922, and \$53.88 for the last half of the year.
