The Final Word.

"GOODBYE: We are just leaving the house."

Just before a journey when there are many last words to be said, final directions to be given and last minute details to be attended to, a telephone in the home is invaluable. By its aid a whole day's work is often compressed into a few minutes.

But a residence telephone is not for special occasions alone—it aids the housewife and lightens the burdens in a score of ways every day. In emergencies—and they are sure to arise some day—it is indispensable.

Have you a telephone in your home?

THE HONORABLE JANE

told by Annie Thom

happening what she believed to be their ill-natured curiosity, and also with gratified vanity. For it may be told that if Captain Stafford was indifferent or blind to his wife's charms, other men were not so, and Dolly had quite a dashing little following of those who found the meretricious, sparkling little married woman, who never bothered them by the display of deep feeling, much safer and more attractive than the prettier girls with whose "people" the day of reckoning would have to come if they indulged in gay fooling.

Under the influence of these various feelings, Dolly was glowing when she came in. She greeted her visitors with the assured self-possession that was one of her characteristics, drawing a sharp hard line between the cordial equality she displayed towards Lady Roydmore, and the air of tolerant, affable superiority to which she treated Jane.

"I expect my husband in every moment. He will be glad to see you, I am sure," Lady Roydmore. He has often spoken about you, and always so warmly.

Your husband and I are friends of several years' standing," Helen said coldly. "How is my aunt, Miss Herries? What has made her amiable enough to release you from the drudgery of teaching my dreadfully tiresome cousin altogether?"

"She has released me altogether," "Then I suppose the report I have heard is true, and you are going to be married?" Dolly interrupted the door and came into their midst, and plain Stafford opened before he saw who his wife's visitors were.

In the little confusion that arose, Jane had an opportunity of rebelling the charge which Dolly had so drolly made against her. The attempt to offer any explanation would have been ponderous and ill-timed. Moreover, she forgot herself in the absorbing interest of this moment of meeting with him again. He looked harassed and seemed distressed, but for all that he was still the woman among men in her eyes. It was evident that their presence in his house gave him no pleasure, and he expressed no desire for the continuance of any kind of intercourse with them. In fact, these two women who had loved him very wildly, and still loved him very weakly, could have felt rather chagrined had they been able to fathom his thoughts, which ran something in this wise—

"I've made a confounded ass of myself, but as I am married, why the devil don't they let me alone to make the best of it?"

At the same time, an opposition sentiment stirred him. The vain and more carnal part of him was glad that their interest in him was so undiminished, that it had conquered their essentially human repugnance to seeing him in these distasteful altered circumstances of his life.

After all, he was only a man!

CHAPTER XXIX.

Rocks Ahead.

For three years the Honorable Jane Herries had led the exciting, but not exhilarating, life of a shuttlecock between those battledores, in-

clination and circumstances. Her sister Florence had obeyed the dictum of always considering most highly the greatest good of the greatest number to be number one. She had considered herself so exclusively, in fact, that she had omitted to remember Jane at all. Consequently, Jane found herself regarded as a selfish, greedy and unjust oppressor whenever she ventured to suggest that at least, she might have a modest share in the goods with which she had enriched Mrs. Graves.

"It's such a short-sighted policy," the latter argued, when dire necessity compelled Jane to approach the onerous subject. "If you deprive me of any of the poor little means I have of making myself alluring and attractive, how can you expect me to settle well in life? And if I don't settle well, it will serve you quite right if I am a burden upon my friends for the rest of my days. The Wyndhams are nearly all that I could wish them to be, but there are lots of things that I have to do and to get that I don't wish them to know about. If you're only reasonably patient, you shall be rewarded the grace of your generosity to me in time, Jane, but you destroy all wars me by reminding me of it. You're so inconsistent. You used to say you loved your independence and were proud of being able to give music and painting lessons." "I give such atrociously bad ones!" "That's your own look-out. Why don't you improve yourself, and give better ones? I am really afraid that you're very conscientious. Indeed I know you are, or you would not contemplate wrecking me after having rescued me from drowning once. Just as my object is nearly accomplished, too! Just as I am on the brink of doing splendidly for myself."

"You have been on the brink of doing that so often, Flo, but all the men have escaped you. I suppose it's a fact. Then, you're counting on again, isn't it?"

Florence nodded her head complacently.

"Is it Mr. Wyndham? Oh, Flo, you're not going to marry that—"
