DEDWIN SMITH'S VIEWS. Toronto, Oct. 29.-In an interview Prof. Goldwin Smith expressed the opinion that Britain could not sk Russia to inflict punishment on her servants, as this would be humiliation. Britain could not ask for the punishment of another nation's servants. She can ask for and is entitled to reparation. If the Russian Government chooses to punish its officers it may do so, and the act might possibe construed as part of the reparation, but to demand punishment would be humiliation. He expects the incident will blow over. The Government had acted coolly and wisely. DECLINED TO DISCUSS IT

COMPLIED WITH ACT

Alleged Disqualified Quebec Candidates Did so in Good Time

Ottawa, Oct. 29.-The Liberal press is making a great ado over the nom-ination of three candidates on Thursday who, it is alleged, are disqualified by reason of the fact that they are public officers. Enquiry shows that all the gentlemen referred to resigned their positions before they were nominated. The resignation of Dr. Fiset, public analyst of Quebec, has been received at the Inland Revenue Department. Mr. Morris Shaver, In-dependent Liberal candidate in Rus-sell, tendered his resignation personally as postmaster at South Indian to the department on Tuesday, while Mr. Michaud, Conservative candidate in Berthier, sent his resignation to the department on Thursday. It was signed at Berthierville before noon of nomination day in the presence of Dr. Gaboury and Mr. F. Lamarche.

COL. WHITE'S OPINION. Ottawa, Oct. 29.-Speaking of the attempt to disqualify candidates in Russel and other counties, on the score that they had been postmasters, Lieut.-Col. Wm. White, C. M. G., ex-Deputy Postmaster-General, said this norning that if a postmaster's resig-ation is dated, signed and mailed up o and inclusive of the day before nominations, it does not matter hether it is accepted or not. TWO MEN DROWNED

Canoe Upset While They Were Returning from Hunting.

Ottawa, Oct. 30 .- Word has been received of the drowning in Lake Pytaonga, Pontiac county, on Thursday night, of Frank Richter and Angus McLean, of Buffalo, N. Y. With a party, including father and uncle of McLean, they were at a hunting camp in the unsurveyed wilds of Pontiac, about 25 miles north-west of Gracefield, the nearest railway station. They were returning to camp in a canoe, and evidently had an upset. The upturned canoe was found by others of the party, and a search immediately instituted. The theory is that cramps and exposure probably caused them to drown as sticking in the bottom of the upturned canoe was a hunting knife. It is supposed they were using this as a means of hanging on and that one becoming cramped the other went to his assistance and both drowned. Divers are going up to-morrow to help in the search. The McLeans formerly belonged to Buckingham, Que., the father being an ex-employe of the Edward's Lumber Co., hence the familiarity with the hunting grounds of the country. Mc-Lean was 17 years of age, and Richter 21.

ELECTIONS AND WARM WEATHER

Have Quieting Effect on Trade in Quebec

FAIR ACTIVITY AT TORONTO

London Reports Trade Moderately Active, Collections Slow and Outlook Generally Good.

(By Special G. N. W. Wire). Toronto, Oct. 30.-Bradstreet's trade eview, weekly summary:— At Montreal, one or two adverse actors have arisen to work against a continuance of activity in trade cirles here. The election campaign is having its effect in quieting trade throughout the province generally. The weather has been less seasonable. A warm spell, which began the latter part of last week and extended well into this, has checked the demand for winter goods. From some quarters come reports of disatisfaction with re-mittances. But dealers are hopeful, and the general trade of the country s in a healthy condition.

Wholesale trade in Toronto contin-ues fairly active. While the election campaign has had some slight effect upon business, it is hardly noticeable. The volume of goods moving is still heavy, and manufacturing industries continue active. Sorting orders from the province cover a wide distribution of goods in all departments of trade, but country retailers do not show a disposition to enter upon the carrying of heavy stocks. The outlook for trade, however, is good, and values are well maintained.

At Quebec, business done, wholesale and retail, has been fairly satisfactory. There have been no satisfactory. There have been no grain deliveries at this port during the season, and, owing to the lowering of freights, shipping has been extremely dull. Country remittances are slow, but on the whole, the outlook is hope

At Winnipeg the approach of cold weather has created more activity in some departments of wholesale trade, although in some lines the late season is responsible for a slow movement of fall and winter goods. The outlook, however, is fairly satisfactory. Thresh-ing operations are almost a month be-hind, and country dealers are inclined to be conservative in their orders. Wheat is going east at the rate of 250 to 300 cars a day, and for the larger part of it is grading 1, 2 and 3 northern. In consequence, money is lowing more freely, although jobbers still complain mercantile collections

At Victoria and Vancouver, wholeerior is lively. Values generally are steady to firm. Trade at London is moderately active. The election campaign and un-seasonable weather has lessened the

Collections a little slow, but the outlook generally is good.

At Ottawa, politics are interfering with trade to a noticeable extent.

POSITIONS UNCHANGED. Report from General Oku's Headquar

ters. Headquarters of Left Army (Gen Oku's) in the Field, Oct. 28, 3 p. m., via Fusan, Oct. 29.-The positions of the armies are unchanged. The Russians are continually searching the Japanese lines with their artillery, fir ing night and day, with seldom any reply from the Japanese. The Japanese army is now working the Yentai nines, digging enough coal for all military purposes. It is believed by mining experts that they can double the output. The gauge of the railway has been changed to Yentai, and quantities of supplies and ammunition are arriving.
