

If the blood is poor and filled with the poisons from diseased kidneys or inactive liver, the heart is not only starved but poisoned as well. There are many conditions—due to impure blood—such as dropsy, fainting spells, nervous debility or the many scrofulous conditions, ulcers, "fever-sores," white swellings, etc. All can be overcome and cured by

Dr. Pierce's Golden Medical Discovery
This supplies pure blood—by aiding digestion, increasing assimilation and imparting tone to the whole circulatory system. Its a heart tonic and a great deal more, having an alternative action on the liver and kidneys, it helps to eliminate the poisons from the blood.
To enrich the blood and increase the red blood corpuscles, thereby feeding the nerves on rich red blood and doing away with nervous irritability, take Dr. Pierce's Golden Medical Discovery and do not permit a dishonest dealer to insult your intelligence with the "just as good kind." The "Discovery" has 40 years of cures behind it and contains no alcohol or narcotics. Ingredients plainly printed on wrapper.
Dr. Pierce's Common Sense Medical Adviser is sent free on receipt of stamps to pay expense of wrapping and mailing only. Send 50 one-cent stamps for the French cloth-bound book. Address: Dr. R. V. Pierce, Buffalo, N. Y.

How to Waste Money and Where to Save it.

Under the above heading there appears a very interesting article in a recent number of "T. P.'s Weekly." The best way to waste money, it is suggested, is to keep it in the pocket. Then, whenever one sees a thing which he fancies he would like he can buy it at once; otherwise, he may forget it, or, having had time to think it over, conclude that he can get along without it.
With the money in one's pocket we are always ready to receive the genius with

"The talk that will make a man think that he needs
The thing that he doesn't; the talk that breeds
So subtly the fear that he'll count for naught
In the swim till that up-to-date frill he's bought."
Some useful suggestions are also made as to how money may be saved, the chief of which is to be systematic in the expenditure of it, to make a careful estimate of it, to make a careful estimate under such headings as household expenditures, food, rent, fuel, clothes, etc., not forgetting something for "The Rainy Day." And for this purpose the writer would no doubt, had he been writing for the eyes of Canadians only, have recommended the Canadian Government Annuities System as giving the largest possible return with the best possible security. By investing a fraction of your income in this way, whether you be man or woman, insure an old age of freedom from want or dependence. Ask your Postmaster for literature on the subject, or write to the Superintendent of Annuities, Ottawa, who will tell you all you wish to know about the system, and how you should proceed to make the provision suggested.

He indeed is the wise man who will let no thought of yesterday's troubles cast shadows upon to-day's duties.

Trouble comes to some of us because we spend more time in hoping for the best than we do in working for it.

PROMINENT RAILROAD MAN

STRONGLY ADVISES HIS FRIENDS TO TRY GIN PILLS FOR THE KIDNEYS
"I have been a Pullman Conductor on the C. P. R. and Michigan Central during the last three years. About four years ago, I was laid up with intense pains in the groin, a very sore back, and suffered most severely when I tried to urinate. I treated with my family physician for two months for gravel in the bladder but did not receive any benefit. About that time, I met another railroad man who had been similarly affected and who had been cured by taking Gin Pills, after

having been given up by a prominent physician who treated him for Diabetes. He is now running on the road and is perfectly cured. He strongly advised me to try Gin Pills which I did,—with the result that the pains left me entirely.

The Sydney Technical College, an Australian Government institution, has opened a department for special instruction in the wool industry.
EXTERNALLY OR INTERNALLY, IT IS GOOD. When applied externally by brisk rubbing, Dr. Thomas' Electric Oil opens the pores and penetrates the tissue as few liniments do, touching the seat of the trouble and immediately affording relief. Administered internally it will still the irritation in the throat which induces coughing and will cure affections of the bronchial tubes and respiratory organs. Try it and be convinced.

The Ladies' Whist Club.

"Is it my lead?" asked the first.
"Well, of all hands, I've got the worst."
"Dear me! If I only knew
What you had," chirps number two.
"Now, I can't say, on the whole,
That this play accords with Poie;
But it is the best I have."
Number three says, mild and suave;
While above this small uproar
Comes the chorus from all four—
"What's the trump?"
"Miss Brown, is that your ace?
Oh, say, have you seen the lace
Selling now at Brown and Dart's?
I forget that she trumps hearts—
And the most exquisite shade—
Gracious! haven't you a spade?
Is it my play? What was led?
Do you know you can get thread,
Only four cents—John Smith's best?
Just here chime in all the rest—
"What's the trump?"
"This, I think, the leading spade;
Oh, I thought the jack was played?"
"Well, that makes two points for you."
"One for us, did you say, Flo?"
"How can that be? Did you trump?
Have you heard about the bump
Lizzie's boy got on his head?
Isn't that a lovely spread?
Did I take that trick? Dear me!"
Here strike in the other three—
"What's the trump?"
"How much better we all play
Than we did! Well, I should say!
Once I couldn't keep my mind
On the game, but now I find
It is as easy as can be.
Is it your deal? Let me see—
No, the cards belong to me,
I remember now that Flo
Led the king, and that the nine—
Did you say the lead was mine?"
"What's the trump?" —Puck

His Parents' Cousin.

The Prince of Wales has a curiously involved relationship to his own father and mother. It constitutes a problem such as is seldom found outside of princely houses.
He is the third cousin of his father and also the second cousin of his mother. This makes his relation to himself somewhat between that of a third and fourth cousin.
He is, as it were, his own double-third cousin, a relationship which will take some time for him thoroughly to grasp.
Both the King and Queen are descended from George III. of England. George III.'s son Adolphus, Duke of Cambridge, had a daughter Mary, who married the Duke of Teck, and became the mother of the Princess May, who married the Duke of York, now King George V. George's father, King Edward VII., was the great grandson of the same King George III.
It would seem that the young prince has a perfect right, therefore, to address either his father, his mother, or himself, as "my royal cousin," and he might very well excuse any partiality for his mother over his father by declaring that she is a nearer relation to him than his father.
The princely families of Europe supply many similar cases of tangled relationship, growing out of the successive intermarriages of cousins in nearer or remoter degrees.

Kiss the Cook.

"Rita"—so Mrs. Desmond Humphries, the English novelist, is called—was condemning the frequency of divorce in America.
"You Americans," she said, "don't seem to possess the secret—the secret, I mean—of matrimonial happiness. Perhaps you might take a lesson from a city clerk I heard of recently.
"A friend of his, after visiting him at his home said—
"Excuse me, Will, but how do you manage on your small salary, to have such well-cooked and delicious meals?"
"The secret is simple," Will replied. Every day I kiss the cook and do all I can to please her and make her happy."
"But doesn't your wife object?" the other asked.
"Dear no, she's the cook," was the reply.
