MANHOOD
How Lost, How Restored!
We have recently published a
new edition of Dr. Culverwell's
Bible's Celebrated Essay
on the radical and permanent cure (without
medicines) of Nervous Debility, Mental and
Physical Incapacity, Impairments to Mar-
riage, etc., resulting from excess.
Price, in a sealed envelope, only 4
cents, or two postage stamps.
The celebrated author, in thirty years' suc-
cessful practice, that alarming con-
sequences may be radically cured without the
dangerous use of internal medicines or the
use of the knife; pointing out a mode of cure
at once simple, certain and effectual, by
means of which every sufferer, no matter
what his condition may be, may cure himself
cheaply, privately and radically.
This treatise should be in the hands of
every youth and every man in the land.
Address,
The Culverwell Medical Co.,
41 Ann St., New York.

BREADMAKER'S YEAST.
BREAD made of this Yeast
is the best. First Prize at Ontario
Exhibition, 1886.
Over 100,000 ladies have written
to say that it surpasses any yeast
ever used by them.
It makes the lightest, whitest,
sweetest bread, rolls, buns and
cakes.
Bakers in nearly every town in
Canada use it.
PRICE FIVE CENTS.

Acadia Organ and Manufacturing Co.
(LIMITED).
Beg to announce to the public, that they intend to add, and have now on the
road, one of the latest improved MOULDING MACHINES; also, Tensoning and
Mortising and other Machinery, which they will add to their already well-stocked
establishment, and will, during the coming season, be pleased to supply their patrons
with the latest style, in Kite Stock, of

MOULDINGS, DOORS, SASHES, STAIR RAIL.
Newell Posts (either fancy ball or turned), Balusters, Etc.
PLANING DONE BY THE THOUSAND.
Will keep in stock **MATCHED SHEATHING,**
FLOORING, matted and kiln-dried, supplied at short notice.
The Company intends giving special attention to the above line of goods, and
shall use every effort to please customers; and, by strict attention to the wants of the
public, hope to merit the patronage of those that may be in want of Building Material.
They will still continue the manufacture of the celebrated **ACADIA ORGAN.**
The reputation of which is too well known throughout our Valley to need any further
comment. This Department will still remain under the management of Mr. Sullis,
PIANOS, of the leading makes, will be supplied, at prices to suit, and OLD
ORGANS taken in exchange.
DINING TABLES will be kept in stock, made of the best material, and at
prices to suit the times. Also, the celebrated and improved **SCHOOL-DESK**
which is giving universal satisfaction, and is recommended by Superintendents, In-
spectors, and Teachers, to be the best in the market. If you are repairing or build-
ing your School-house, call and see the Improved Desk before using any other.
Orders promptly filled from carefully selected stock.
All orders addressed to the **ACADIA ORGAN AND MANUFACTURING COMPANY**
will receive prompt and careful attention.

RIGHT HERE IN CANADA!
What Your Friends and Neighbors Say
on a matter of vital importance.
Below will be found a sample of the
multitude of letters of encouragement
from H. E. Warner & Co., of Rochester,
N. Y., duly received. The untold un-
solicited testimonials are from your friends
and neighbors, ladies and gentlemen, you
know and esteem, and who have seen
straightforwardly, and who would scorn
to be a party in any deception. What has
been done for others can be done for you,
and it is folly, say outside, to longer suffer
from the means of recovery at your
very door.
International R. B. Diving Saloon, Ac-
tress, Nova Scotia, Jan., 1887.—In October
1887, I was taken down with bleeding
from the kidneys, or some of the arteries
leading from them. One day, while sitting,
I felt something giving away in the region
of my left kidney and immediately after
a momentary stoppage in the flow of
my urine, I was seized with a severe
pain in the back, and the blood
began to flow in a stream, and the
bleeding began to get less, and in two or three
days the drops began to set in my legs
and feet. By this time I was reduced to
mere skeleton, suffering from cramps in
my legs, feet and hands, also the bio-
coughs. My flesh became like a piece of
unplanned mangle, and I had no
signs of any moisture, I then wish to
say that I did not take any of Warner's Safe
Cure from the 20th of December, 1887,
till the 15th of March, 1888. I tried all
they could to cure the drops, but had to
resort to tapping at last, which was done
every fifteen or fourteen days, till the
22nd of March. Then I was given up as
hopeless, my spiritual director giving me
the last rites of my church. I told
them, fear not, I would, with the aid of
God and Warner's Safe Cure, come out
all right. I then began taking Warner's
Safe Cure every three hours until I was
able to get up on my feet, and I was
able to get out with the aid of my
cane, and I was able to walk or drive. I
continued to take Warner's Safe Cure and
now I feel as well in health as I ever did. No
more trouble with cramps, no
molecules, fish and crabs, still living
well, therefore, have made a still more
rapid transit.—*Popular Science Monthly.*

John Ramsay, M. D.
I am a physician. I have made a life
long study of the human brain, and may,
perhaps, be pardoned if I say that my
opinions upon diseases of the mind now
carry considerable weight among members
of the profession.
It is only a week or two since I was
called to a large asylum for the insane in
northern Ohio to examine a case which
baffled the skill of the local doctor. After
disposing of the matter, I took an unpro-
visioned stroll through the institution in
company with my old friend the superin-
tendent.
This man over which I now made a
long study of the human brain, and may,
perhaps, be pardoned if I say that my
opinions upon diseases of the mind now
carry considerable weight among members
of the profession.

opinions upon diseases of the mind now
carry considerable weight among members
of the profession.
It is only a week or two since I was
called to a large asylum for the insane in
northern Ohio to examine a case which
baffled the skill of the local doctor. After
disposing of the matter, I took an unpro-
visioned stroll through the institution in
company with my old friend the superin-
tendent.
This man over which I now made a
long study of the human brain, and may,
perhaps, be pardoned if I say that my
opinions upon diseases of the mind now
carry considerable weight among members
of the profession.
