### CURRENT TRADE CONDITIONS. ONTARIO.

Lumber shipments during the past week have been of considerable volume, although not approaching anything in the nature of a boom. The season is too far advanced to expect a large movement of stock this year, but the conditions are favorable to an active demand in the early spring. The extensive manufacturing works contemplated at Sault Ste. Marie, and the new railways to be built in north-western Ontario, will call for a very large quantity of constructive material, of which timber will comprise the greater portion. The improvements to Toronto harbor are in progress, and it is understood that the contractors are in the market for a quantity of hemlock and other timber required for the work.

The changes in the Toronto price list this week consist of a slight advance in the price of 2x4, 6 and 8 inch common lumber, for which an increased demand is reported; 2x4 inch selling at \$14.50, and 2x6 inch and 8 inch at \$15.50. Cull scantling are also marked up 50 cents. The quotations on laths and shingles have not been altered. We believe that some sales have been made at prices slightly above those quoted, although orders are still being accepted at the figures of \$2.75 for No. 1 and \$2.25 for No. 2 lath.

A marked difference exists in the prices asked by manufacturers for lath, making it difficult to arrive at an average price. The lath market, however, is showing strength, and prices are likely to advance, to be followed, probably, by shingles.

### QUEBEC AND NEW BRUNSWICK.

As navigation on the St. Lawrence is drawing to a close, considerable interest is shown in the stocks wintering on this side. Although the figures are not yet available, it is believed that the quantity of British deals to be carried over at the leading ports along the St. Lawrence will not be exceptionally large. In New Brunswick and Nova Scotia the stock is perhaps a little heavier than last year. Owing to the increased cost of production and the present somewhat unfavorable outlook for spruce in Great Britain, it is believed that the quantity of logs taken out this winter will be curtailed; in fact, advices from several districts confirm this opinion. The United States demand has become more active since the Presidential election. Extra cedar shingles are selling, on Boston rate of freight, from \$2.75 to \$3.00, clear at \$2.50 and second clears at \$2.35. Laths are selling well at \$2.40 to \$2.50 for 1½ inch, and \$2.75 to \$2.80 for 1¾ inch.

### UNITED STATES.

A number of large orders for lumber have been placed with United States dealers during the past week. Accordingly, the market has strengthened, although only in a few instances have prices been advanced. White pine is selling at former figures, the trade apparently believing that it would be unwise to advance prices at this season of the year. What
