"God has prospered my undertak ngs, and I recognize the possession of wealth to be a sacred trust, and I wish first to give to the poor who are cared for by the holy religious who manage these institutions. Perfect Health.

Few human beings are in a state of natural, perfect health. The little ills that bother many of us are often overlooked, on account of their smallness. But these little ills grow—the more you neglect them the harder they are to shake off. Stamp them out, now, and prevent their return by the daily

Abbey's Effervescent Salt.

Its efficacy as a preventive and cure for many of the prevalent ills is testified to by many eminent physicians in Europe and Canada. Medical journals of prominence speak highly of it.

The Canadian Pharmaceutical Journal says:

"We have tried Abbey's Effervescent Salt, and find it an excellent compound. It was most favorably commented upon by the medical profession at the meeting in Montreal of the British Medical Association. The Company was not afraid of submitting it to the criticism of medical men. All were invited to sample and pass judgment on it. This was invariably favorable, some expressing the opinion that it was superior in points to any other on the market. A morning draught of this stimulating preparation will send a man to his daily occupation invigorated and ready for any task,"
