SAMUEL COCHRAN invites the attention of Consumers to his Stock of TEAS and COFFEES, which have been selected with the greatest care, and on such terms as to allow him to office them at unusually low prices.

The MACHINERY on the Premises, worked by a Four Horse Power Steam Engine, for Roasting and Grinding Coller, as on the most approved plan, the Coffice being closely confined in polithed metal spheres, which are constantly revolving and oscillating in heated air chambers, is prevented imbibing taint from Smoke, danger of partial carbonisation of the Bean and loss of Aroma, so important to Connisceurs, which is further ensured by attention to Grinding at the shortest time prior to Sale. To this claborate process SAMUEL COCHRAN owes the high reputation his Coffee has obtained through a large portion of the Provinces.
