TORONTO, February 22nd, 1894.

BOOTS AND SHOES.—The labor difficulties still continue, but in a modified form, as to a large extent non-union men have taken the place of strikers in the factory affected. The other factories are fairly active. Things are somewhat quiet with the jobbing houses. The rubber goods trade has fallen off within the last few days, but it is expected to pick up again with the arrival of warmer weather.

DRUGS.—Trade with the city retail houses has been fairly good. In values opium, morphia and quinine have firmer tendencies. Cream tartar has advanced in European markets 5 to 6s. per cwt., and is naturally held firm here. The *New York Journal and Bulletin of Commerce*, on the 20th inst. says: "The season progresses, however, without the development of interest for quantities, the extremely low point of many lines yet failing to

influence speculative attention, buyers of all sections being unwilling to anticipate the probable requirements of the future."

DRY GOODS.—We have found the wholesale houses all busy in their preparations for the trade of next week. The millinery openings for the season take place on the 26th, 27th and 28th of this month, and a large number of traders will, it is expected, as usual visit the

YOU A STEAM BOILER?

If so, do you think of preserving it at a small annual cost? An outlay of about \$20 per annum on the reliable English boiler compound called "Vegetable Liquid Anti-Scale," will effectually remove and prevent incrustation in a 40 h. p. boiler, and bring you good results in saving of fuel, preservation of plates, &c. It is the best boiler compound known and no steam users can afford to be without it. Send for circulars and testimonials.
