

The Massey Low Down Cord Binder.

500 MADE THIS SEASON!

INCREASED DEMAND FOR 1884!!

— THE MASSEY LOW DOWN BINDER. —

1,500 CORD BINDERS WILL BE BUILT BY US FOR 1884.

We publish a few testimonials from prominent farmers who have used them.

CHATHAM, July 30th, 1883.

Messrs. Stephens & Stringer,
Agents Massey Manufacturing Co.:

DEAR SIRs.—The Massey Low Down Binder we bought from you is a perfect success, doing its work in a very satisfactory manner. Any ordinary team can cut ten acres per day. It can be driven through a common farm gate. It is just what the farmers need, light, strong, simple, durable and handy, any boy that can drive a team can handle it.

Yours truly,

JOHN LONGMORE, WM. LONGMORE,
WM. OLD, JOSEPH SHEPHELY,
WM. PRICE, HENRY DRURY,
MITCHELL & BELL.

BEETON, August 12th, 1883.

Massey Manufacturing Co.:

GENTLEMEN.—After having a thorough test of the Low Down Binder which we bought of your agent, James Gauley, we are in a position to say it has given us entire satisfaction, and would heartily recommend it to our brother farmers who are in need of a binding Harvester.

JAS. RIDDELL, Purchaser,
CHARLES BAXTER,
JOHN COULTER,
E. A. KEMP,
E. B. BOREAND.

OLD HOME FARM,
MARKHAM, August 7th, 1883.

The Massey Manufacturing Co., Toronto:

GENTS.—The Massey Low Down Binder I bought from M. J. Beare is a success, doing its work in both wheat and barley in a highly satisfactory manner. It is very easily managed, makes a neat sheaf and can be adjusted to any size or tightness desired. It is destined to be The Self-Binding Harvester of the age, being worked with an ordinary team of horses, and can be taken through any usual width of gate.

I am, Gents, yours truly,

N. E. REESOR.

BURRCOTT'S RAPIDS, August 8th, 1883.

The Massey Manufacturing Co., Toronto:

This is to certify that the Massey Low Down Binder I bought from your agent, Mr. V. Lamping, has now cut about 50 acres of rye in one week, and also cut eight acres in one half day, with a pair of horses weighing not more than ten hundred each, and I am satisfied beyond my expectations, and believe I could sell a dozen next season. I can recommend the Low Down Binder as a first-class machine and wish them every success.

Yours, etc., WALSEY PERCIVAL.

HOMER P.O., Aug. 15th, 1883.

The Massey Manufacturing Co.:

GENTLEMEN.—Having bought one of your Low Down Binders from your agent, A. W. Bessey, and having given it a thorough trial in heavy stout wheat and over extremely rough ground and deep ditches, I have no hesitation in saying it is the farmer's friend. It has given me entire satisfaction in every respect. My team, being small, handled it with ease, cutting from ten to twelve acres per day, and with not one oz. of side draft. Brother farmers buy a Low Down Binder and be happy.

JAMES SERVOS.

FINGAL, August 4th, 1883.

Massey Manufacturing Co., Toronto:

GENTLEMEN.—The Low Down Binder I purchased from your agents, McArthur & Ridsen, has given me entire satisfaction. After having cut 26 acres heavy fall wheat, badly lodged and wet, I have no hesitation in recommending it to fellow farmers.

Yours, &c., JOHN BISELL.

ST. CATHARINES, Aug. 30th, '83.

Massey Manufacturing Co.

GENTLEMEN.—Having bought one of your Low Down Binders from your agent, A. W. Bessey, and have given it a thorough trial in all kinds of grain, both heavy, light lodged, and it has done its work very satisfactory and I take pleasure in recommending it to my brother farmers, being light in draught and easy to handle, going through any ordinary gate and is all I could wish for.

OSCAR H. LUTZ.

OAKWOOD, August 7th, 1883.

Massey Manufacturing Co., Toronto:

SIRS,—To-day I have cut five acres of heavy fall wheat, most of it was badly down and tangled in all shapes, in fact I never thought any Binder would handle it, but your Low down Binder cut it, did not miss half a dozen straws, making a complete separation, and did it in better shape than it possibly could have been done with Self-Rake Reaper and tied by hand. Had no stops except to oil. Draws light, my team handles it with all ease, and I also tried it in barley and must say I am more than pleased with it.

Yours truly, WM. THORNDIKE.

SCARBORO', September 3rd, 1883.

The Massey Manufacturing Co.:

GENTLEMEN,—I have now finished my harvesting with Massey's Low Down Binder purchased through your agent, Mr. J. Beare, and must say that it has met my most sanguine expectations. I had no trouble or break-ages, and its work far surpasses the ordinary way of gathering in the harvest with Self-Raking Reapers and Binders. It is exceedingly easy to manage, and it makes an excellent sheaf.

SILAS PHENIX.

CANNINGTON, Thursday Aug. 30, 1883.

The Massey Manufacturing Co., Toronto:

I have cut 40 acres of grain with my Low Down Binder and I am well pleased with my machine. It has given me good satisfaction. I have cut with it peas, oats and barley mixed, and in this crop your machine did good work, cutting and binding every sheaf.

JOSEPH BLACK.

MARKHAM, Ont., Aug. 9th, 1883.

Massey Manufacturing Co.:

SIRS,—I have one of your Low Down Binders in successful operation and would cheerfully recommend it to all farmers who want a perfect easy running machine.

Yours truly,
GEO. MILLER.

Riggfoot Farm, Markham, Ont.
