A WELL-TRIED TREATMENT

For Consumption, Asthma, Bronchitis, Dyspepsia, Catarrh, Hay Fever, Headache, Debility, Rheumatism, Neuralgia, and all Chronic and Nervous Disorders.

When Compound Oxygen is inhaled the heart has imparted to it increased vitality. That organ sends forth the blood with more force and less wear to itself; the vital currents leave on their circuit new deposits of vital force in every cell of tissue over which they pass, and return again to the lungs for a new supply. This simple story is the rational explanation of the greatest advance that medical science has yet made.

"The Compound Oxygen Treatment" which Drs. Starkey & Palen, No. 1529 Arch Street, Philadelphia, have been using for the last sixteen years, is a scientific adjustment of the elements of Oxygen and Nitrogen magnetized, and the compound is so condensed and made portable that it is carried by express to every portion of the country—indeed, it is sent all over the world.

Drs. STARKEY & PALEN have the liberty to refer (in proof of their standing as physicians) to the following named well-known persons who have tried their treatment:—Hon. William D. Kelley, Member of Congress, Philadelphia; Rev. Victor L. Conrad, Editor Lutheran Observer, Philadelphia; Rev. Charles W. Cushing, Editor American Reformer, New York; Hon. William Penn Nixon, Editor Inter-Ocean, Chicago, Ill.; Judge Joseph R. Planders, Temple Court, New York; Mrs. Mary A. Cator, Widow of the late Dr. Harvey Cator, Camden, New Jersey; Mrs. Mary A. Doughty, Jamaica, Long Island, N.Y.; Mrs. Mary A. Livermore, Melrose, Massachusetts; Judge R. S. Voorhees, New York City; Mr. George W. Edwards, Proprietor St. George's Hotel, Philadelphia; Mr. Frank Siddall, a well-known merchant, Philadelphia; Mr. William H. Whitely, Silk Manufacturer, Darby, Philadelphia, Pa.; and many others in every part of the United States.

"Compound Oxygen—its Mode of Action and Results," is the title of a volume of nearly two hundred pages, published by Drs. Starkey & Palen, which gives to all inquirers full information as to this remarkable curative agent and large record of surprising cures in a wide range of chronic cases—many of them after being abandoned to die by other physicians. It will be mailed free to any address on application.

FITCH'S Lectures on Teaching!

LECTURES ON TEACHING. Delivered in the University of Cambridge. By J. G. FITCH, M.A., one of Her Majesty's Inspectors of Schools. New edition, with a Preface by an American Normal teacher. 16mo. Cloth, \$1.

"This is eminently the work of a man of wisdom and experience. He takes a broad and comprehensive view of the work of the teacher, and his suggestions on all topics are worthy of the most careful consideration."—N. E. Journal of Education.

Mr. R. H. Quick says in The Academy:—"Young teachers (and old ones too) may learn much from this volume, but they may gain from it a still greater good—they may get a notion how much there is to learn." "The book is especially valuable to school superintendents, as it was addressed to a class of public masters."—Illinois School Journal.

FITCH'S Lectures on Teaching.

"The lectures will be found most interesting, and deserve to be carefully studied, not only by persons directly concerned with instruction, but by parents who wish to be able to exercise an intelligent judgment in the choice of schools for their children. For ourselves we could almost wish to be of school age again to learn history and geography from some one who could teach them after the fashion set by Mr. Fitch to his audience."—Saturday Review. "It comprises fifteen lectures, dealing with such subjects as organization, discipline, examining, language, fact, knowledge, science and methods of instruction; and though the lectures make no pretension to systematic or exhaustive treatment, yet they leave very little of the ground uncovered, and they combine in an admirable way the exposition of sound principles with practical suggestions and illustrations."—Scotsman.

16mo. 50 Cents. "For young teachers this work is of the highest value. It is a book every teacher will find helpful in their responsible work."—N. E. Journal of Education.

Theory and Practice of Teaching.

By the REV. EDWARD THRING, M.A. 12mo. New edition. 16mo. \$1.

"We hope we have said enough to induce teachers in America to read Mr. Thring's book. They will find it a mine in which they will never dig without some substantial return, either in high inspiration or sound practical advice. Many of the hints and illustrations given are of the greatest value for the ordinary routine work of the class-room. Still more helpful will the book be found in the weapons which it furnishes to the schoolmaster wherewith to guard against his greatest danger, slavery to routine."—Nation.
