

“It Simplifies My Work”

Those bothersome details never worry me,” said an eminent physician, when asked the secret of his success. “And I have found that there are three things necessary for the success of any professional man. (1) Constant study to keep abreast of the times. (2) Bright, fresh, up-to-date labor-saving equipment for the office and laboratory. (3) An efficient system of accounts.”

In probably no other walk of life is it so absolutely necessary to eliminate detail work as much as possible, as in that of a professional man. With an

Office Specialty “Efficiency Desk”

“I have been able to cut detail work to a minimum. My records of patients, of treatments, of the progress made, essential memoranda of research work, and results of laboratory tests, on the action of certain medicinal formulas for some particular case, are all filed, so they are available instantly when I want them. My business records are also kept in order for a proper ‘follow up’ system for collecting my accounts.”

This is an ideal desk for any professional man, combining as it does the advantages of an up-to-date, flat top desk and filing features, only procurable in a filing cabinet—all at the price of a desk alone. The lower drawers can be used for filing correspondence and like matter, the upper drawers as Card Record Index cabinet, where appointments, follow-up accounts, etc., can be arranged for.

It will be to your advantage, if you are not already enjoying the satisfaction this desk gives, to investigate the possibilities it would have in your consulting room or office. Detail work is practically eliminated and gives the freedom necessary for the concentration of your mind in the proper channels. Consult the nearest branch office, or write direct to the Home Office, to-day, for further information.
