

- the amount of supertoxic lethal chemicals possessed by a Party for protective purposes or acquired for protective purposes by any Party in any calendar year shall be included in the 1 tonne aggregate limit [for all permitted purposes] for the following chemicals:
  - supertoxic lethal chemicals
  - [key component of binary and/or multicomponent chemical systems for chemical weapons]<sup>\*/</sup>
  - key precursors<sup>\*/</sup>
- Each State Party which produces such chemicals for protective purposes shall carry out the production at a single small-scale production facility,<sup>\*\*/</sup> the capacity of which shall not exceed ... metric tonne per year. The location and a detailed description of the facility shall be provided to the Consultative Committee no less than 30 days before operations commence, and the facility shall be subject to monitoring by the National Authority and the Consultative Committee through annual submission of data, on-site instruments, on-site national inspections and systematic international on-site inspections. Further information on the facility, its monitoring and operations is provided in ...
  - [- Any establishment possessing, producing or using laboratory quantities of such chemicals shall be approved by the State Party. The establishments will be monitored by the National Authority and by the Consultative Committee through annual data reporting.]
- Each State Party may transfer such chemicals only to another State Party for protective purposes, subject to the quantity limitations specified in paragraph 3 A (iii) above, [or for research or medical purposes]. Thirty days prior to any transfer or reception greater than ... the transferring Party shall report the transfer or reception to the Consultative Committee, as specified in ... . Items transferred may not be retransferred to another State.

---

<sup>\*/</sup> The amounts of key component of binary and/or multicomponent chemical systems for chemical weapons and key precursors will be measured in accordance with the amount of final supertoxic lethal chemicals produced by these compounds.

<sup>\*\*/</sup> This does not prejudice the position of one group of delegations about the functions of the single small-scale production facility.
