

EXCHANGE OF NOTES (January 22 and February 22, 1952) BETWEEN CANADA
AND THE UNITED STATES OF AMERICA PROVIDING FOR THE RELOCA-
TION OF TWO OF THE PACIFIC OCEAN WEATHER STATIONS

I

*The American Ambassador to the Canadian Secretary of State
for External Affairs*

THE FOREIGN SERVICE OF THE UNITED STATES OF AMERICA

No. 173

The Ambassador of the United States of America presents his compliments to his Excellency the Secretary of State for External Affairs and has the honor to refer to an understanding between the Government of the United States and the Government of Canada for an interim Pacific Ocean Station Program contained in an exchange of notes which took place in Washington on September 25, 1950 and February 16, 1951.*

As a result of surveys of aircraft operations between San Francisco and Honolulu, it has been found that a slight relocation of Stations "N" and "U" to the south would provide improved meteorological, search and rescue, traffic control and communications service for these operations. It is proposed that Station "N" be moved from its present location, 33° North-135° West, to 32°30' North-135° West; a distance of about 30 miles; and that Station "U", now located at 28° North-145° West, be moved to 27°40' North-145° West, a distance of about 20 miles.

The Department of External Affairs is requested to inform the Embassy if the Government of Canada agrees to these changes.

United States Embassy

Ottawa, January 22, 1952
