## Attachment B

Positive list of specific products to be covered by this agreement wherever they are classified in the HS.

Where parts are specified, they are to be covered in accordance with HS Notes 2(b) to Section XVI and Chapter 90, respectively.

<p><b>Computers:</b> automatic data processing machines capable of 1) storing the processing program or programs and at least the data immediately necessary for the execution of the program; 2) being freely programmed in accordance with the requirements of the user; 3) performing arithmetical computations specified by the user; and 4) executing, without human intervention, a processing program which requires them to modify their execution, by logical decision during the processing run.</p> <p>The agreement covers such automatic data processing machines whether or not they are able to receive and process with the assistance of central processing unit telephony signals, television signals, or other analogue or digitally processed audio or video signals. Machines performing a specific function other than data processing, or incorporating or working in conjunction with an automatic data processing machine, and not otherwise specified under Attachment A or B, are not covered by this agreement.</p>
<p><b>Electric amplifiers</b> when used as repeaters in line telephony products falling within this agreement, and parts thereof</p>
<p><b>Flat panel displays</b> (including LCD, Electro Luminescence, Plasma and other technologies) for products falling within this agreement, and parts thereof.</p>
<p><b>Network equipment:</b> Local Area Network (LAN) and Wide Area Network (WAN) apparatus, including those products dedicated for use solely or principally to permit the interconnection of automatic data processing machines and units thereof for a network that is used primarily for the sharing of resources such as central processor units, data storage devices and input or output units - including adapters, hubs, in-line repeaters, converters, concentrators, bridges and routers, and printed circuit assemblies for physical incorporation into automatic data processing machines and units thereof.</p>
<p><b>Monitors :</b> display units of automatic data processing machines with a cathode ray tube with a dot screen pitch smaller than 0,4 mm not capable of receiving and processing television signals or other analogue or digitally processed audio or video signals without assistance of a central processing unit of a computer as defined in this agreement.</p> <p>The agreement does not, therefore, cover televisions, including high definition televisions.<sup>3</sup></p>
<p><b>Optical disc storage units,</b> for automatic data processing machines (including CD drives and DVD-drives), whether or not having the capability of writing/recording as well as reading, whether or not in their own housings.</p>
<p><b>Paging alert devices,</b> and parts thereof .</p>
<p><b>Plotters</b> whether input or output units of HS heading No 8471 or drawing or drafting machines of HS heading No 9017.</p>
<p><b>Printed Circuit Assemblies</b> for products falling within this agreement, including such assemblies for external connections such as cards that conform to the PCMCIA standard.</p> <p>Such printed circuit assemblies consist of one or more printed circuits of heading 8534 with one or more active elements assembled thereon, with or without passive elements "Active elements" means diodes, transistors, and similar semiconductor devices, whether or not photosensitive, of heading 8541, and integrated circuits and micro assemblies of heading 8542.</p>
<p><b>Projection type flat panel display units</b> used with automatic data processing machines which can display digital information generated by the central processing unit.</p>

<sup>3</sup> Participants will conduct a review of this product description in January 1999 under the consultation provisions of paragraph 3 of the Declaration
