What services are available to international clients?

As the principal information window into the Department of Foreign Affairs and International Trade, the InfoCentre provides foreign clients with access to a variety of information on investing and doing business in Canada. **FaxLink International** (FaxLink-I) is accessible to any foreign client who has access to a facsimile machine. The system stores an array of trade and investment information. For clients equipped with a personal computer and a modem, the **InfoCentre Bulletin Board** (IBB) provides current general trade information on Canada.
