

- (d) **Measures** identifies the laws, regulations or other measures, as qualified by the **Description** element, for which the reservation is taken. A measure cited in the **Measures** element:
 - (i) means the measure as amended, continued or renewed as of the date of entry into force of the *Agreement to Amend the Free Trade Agreement between the Government of Canada and the Government of the Republic of Chile, done at Santiago on 5 December 1996, as amended, between the Government of Canada and the Government of the Republic of Chile*;
 - (ii) includes any subordinate measure adopted or maintained under the authority of and consistent with the measure; and
- (e) **Description** sets out references, if any, for liberalization on the date of entry into force of the *Agreement to Amend the Free Trade Agreement between the Government of Canada and the Government of the Republic of Chile, done at Santiago on 5 December 1996, as amended, between the Government of Canada and the Government of the Republic of Chile* pursuant to other sections of a Party's Schedule to this Annex, and the remaining non-conforming aspects of the existing measures for which the reservation is taken.

3. In the interpretation of a reservation in Section I, all elements of the reservation shall be considered. A reservation shall be interpreted in the light of the relevant provisions of the Chapter against which the reservation is taken. To the extent that:

- (a) the **Measures** element is qualified by a specific reference in the **Description** element, the **Measures** element as so qualified shall prevail over all other elements; and
- (b) the **Measures** element is not so qualified, the **Measures** element shall prevail over all other elements, unless any discrepancy between the **Measures** element and the other elements considered in their totality is so substantial and material that it would be unreasonable to conclude that the **Measures** element should prevail, in which case the other elements shall prevail to the extent of that discrepancy.
