

Canadian branch of the St. John Ambulance Association was first created. The personnel of the first General Council are named in that statute, and they are distinguished citizens from all provinces of Canada. They have all, I am told, since been gathered to their fathers. They did great work. Theirs was a fine conception which in 50 years has borne fruit one hundredfold. With the permission of the Senate I shall personally record their names in *Hansard* in remembrance of them and as an example to others. I ask, honourable senators, to be allowed to place this list on *Hansard*.

Hon. Senators: Agreed.

Hon. Mr. Kinley: The list is as follows:

The preamble to the bill is very informative. It recites that:

—on or about 16th day of September, 1946, the Order created an Establishment of the Order in and throughout Canada now called The Priory of Canada of the Most Venerable Order of the Hospital of St. John of Jerusalem, designated for brevity "The Priory of Canada of the Order of St. John", and hereinafter called "the Priory".

The preamble also recites that the Corporation of the Priory of Canada and the General Council of the Canadian Branch of the St. John Ambulance Association prays that the provisions of a bill be enacted as herein set forth.

Chapter 145 of the Statutes of Canada, 1914, assented to on June 12 of that year, incorporated the General Council of the Canadian Branch of the St. John Ambulance Association—called the corporation—and our consideration now is of the proposed amendments and changes to the legislation of that date. The detail is as follows.

Clause 1 reads:

In this Act,

(a) "Foundations" means institutions or organized bodies constituted by the Priory for the furtherance of the objects of the Order, or any of them, and includes the St. John Ambulance Association and the St. John Ambulance Brigade in Canada;

(b) "branches" means subordinate parts of the Priory and its Foundations and includes its Provincial Councils and Special Centres...

I might say that the organization as it is found in the provinces of Canada is called the Council. There are organizations that work largely within themselves, but they are under the control of the Priory. There are special centres such as the Canadian Pacific Railway centre, the Canadian National Railway centre, the Civil Service Ottawa centre, the Northern Electric centre, the R.C.M.P. centre, the Bell Telephone Company centre, and the Department of National Defence centre.

(c) "Regulations of the Priory" means the regulations of the Priory and its Foundations in force from time to time under the government of the Order in so far as it relates to Canada.

By clause 2 of the bill the name of the corporation is changed to St. John Priory of Canada Properties. This name is considered more appropriate at the present time, but
