

MCGILL UNIVERSITY
MONTREAL

FACULTY OF APPLIED SCIENCE
OFFICE OF THE DEAN

November 28th, 1930.

Sir Arthur Currie, G.C.M.G., K.C.B., LL.D.,
Principal.

Dear Sir Arthur:-

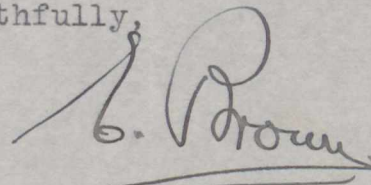

I have considered carefully the questions raised in your letter of November 26th in regard to the work of the Faculty of Applied Science, and shall be glad to do all I can to collect and arrange the information which you ask for.

In view of the nature of the inquiry to be made and of the organization of our work, it appears to me essential to name a representative committee to discuss at the outset the broad issues raised in your letter. Such a committee would then decide the general lines along which inquiry should proceed, and would doubtless find it necessary to seek the co-operation of others in particular phases of the investigation. Your own letter would form the general instructions to the committee, which would be free to adopt any procedure deemed best suited to the purpose in view.

With this idea in mind, I suggest the following committee with myself, ex-officio, as Chairman of the Faculty:- Dr. Johnson, Dr. Stansfield, Professors French, McKergow, Christie, McBride and Traquair.

To be effective, the work of such a committee must not be unduly hurried, but I take it that you will expect to have a report on your return from your trip to India. I shall be glad to have your instructions on this point.

Yours faithfully,

Chairman of the Faculty.
