

The upper of each pair of figures in these tables refers to Graduates up to and including 1921; the lower to graduates in the fifteen years 1907-21 inclusive. The last column summarizes the replies received from all engineering schools in America by the S.P.E.E.

Question 9:- "Please indicate your judgment as to the quality or sufficiency of relationship between the engineering subjects which you studied in college and the problems and procedures of engineering practice."

SUMMARY OF REPLIES

Departments	Chem. Eng.	Civil	Elect.	Mech.	Mining	All	S.P.E.E.
Number of Replies	26 21	119 92	70 43	70 45	53 30	338 233	1778
	%	%	%	%	%	%	%
Conspicuously poor	0.0 0.0	0.0 0.0	0.0 0.0	0.0 0.0	0.0 0.0	0.0 0.0	0.8
Poor, not what it should have been.	19.2 14.3	3.4 0.9	5.7 4.6	15.7 13.3	5.7 6.3	8.0 6.0	5.6
Passable	26.9 33.3	20.2 18.5	27.2 18.6	22.8 24.4	28.3 31.2	24.0 22.8	22.3
