PETROGRAD, July 16. - Russian

per office officials today admitted the loss of Przasnysz to the Germans,

but said that its capture would be of

no strategic advantage to the kaiser's

forces, the town having been practically destroyed by artillery fire. The Germans have tried to press on

from Przasnysz. The latest official

reports from the front tell of fight-

ing south of that town in which the

Russians repelled numerous German

attacks. German attacks are also in

progress in the direction of Lomza,

the Narew River fortress, northeast

of Przasnysz. Lomza and Pultusk form the Narew defences of Warsaw.

To prevent the massing of immense

Russian forces in northern Poland,

trating their attacks, the Germans have resumed their offensive with re-

inforcements in the Shavii and Nie-men districts, while the Austrians on the Oniester River are again making

crossing at three points.

Brought Up and Discussed.

Application of the Niagara, St. Catharines & Toronto Railway, Company, under Sections, 284, 285, 317, 318, 333. and 334, for an order providing for the transfer of traffic between the Toronto Harbor Commissioners' Dock situated at the mouth of the Don River as diverted, which dock is to be leased to the Applicant Company, and the Canadian Northern Ontario Railway Company's Cherry Street yards, in the City of To-Street yards, in the City of To-ronto, Ontario. (File No. 3498.28).

The above paragraph was on the order paper of the Canadian Board of Railway Commissioners at their session here yesterday.

It involves a very important issue in connection with the new public harbor of Toronto, now approaching completion, and the docks in connection therewith. The Canadian Northern have not yet built their line from Toronto to the Niagara River, tho they now have tracks from Port Dalforce, having effected a housie to Niagara Falls connected with Toronto by steamboats. Pending the construction of the railway from here to the Niagara River they propose to put on a car ferry service from the new harbor to Port Dalhousie capable of carrying twenty cars each way, twice a day. They have also leased one of the new docks in the harbor board's lay-out. They are now negotiating for the car ferry. But in order to complete the carries to the carries order to complete the service it will ruined.
