Lath Mills.**

Several Sizes Combined
PLANERS.

**WOODYARD
OUTFITS.**

Ewart Link Belting.
The Great Conveying Medium.

WATEROUS ENGINE WORKS CO., Brantford, CANADA.

Our maxims have been "Nothing can be too well made."
"Make the machinery as it should be in every part and then
set the price at a fair profit considering the cost." "Never
cut the price and then cheapen the production to suit the
price." "That mill men and people generally can and do
appreciate a good article and will generally buy it, even if
first taken in with some cheap machine said to answer as
well," After forty years of successful business life on the
same premises, conducted on these lines, we have no reason
to regret having started out with this standard before us. It
has given us a reputation we are proud of, one that we can-
not afford to injure; and one
that has kept us in full oper-
ation during these years, when
many shops have been closed
and others run short handed
or on short time.
