

## TEACHERS FROM ABROAD.

To introduce this improvement into the school system of the various Provinces of Canada, with a chance for the best possible results, it has been necessary to engage teachers who have been trained specially and who have had experience elsewhere. At this date twenty-four teachers have been brought from Great Britain. Two instructors have been engaged from the United States, and one from Sweden.

A few more will complete the number of teachers of experience required to begin the work in the various Macdonald Manual Training Schools. Several assistant teachers have been engaged in Canada, who will have an opportunity to become proficient as full instructors. Special courses are also provided at Ottawa, Ont., and Truro, N.S., to train Canadian teachers to carry on the system efficiently and thoroughly in all the Provinces, in
