## Voters' Lists

We cannot too strongly imprese upon our workers the necessity of immediate attention to the preparation of the voters' liste in those municipalities in which there is any possibility of a vote being taken upon a Local Option hy-law.

The voters' lists are prepered by the municipal cierk from the assessment roll. The elmplest method of securing a piece upon the voters' list for the names of persons entitled to be enrolled is to see 'but they are duly recorded by the municipal assessors.

If this duty is aeglected, however, there is a later opportunity for correcting the mistake. After preparation by the clerk, the voters' lists ere printed and exposed in post offices, schools, and other public places in the municipality. These printed liste ought to be cerefully studied, end note made of any duly quelified persons whose names have been omitted from them.

Appeels may be mede for the removal of names thet ought act to be on the lists and for the edding of names thet ought to have heen put on and the names of persons moving into the municipality after the assessment was made.

These appeals must he made after the publication of the lists, within a specified time, which will be duly edvertised. They will be heard by the County judge on n date fixed and anaounced. There is hardly n municipality in which the lists are not defective because of the absence of names that ought to be entered and hecause of the enrolling of names of persone not qualified under the law to be enrolled.

It is easy to see how a little inettention on the part of temperance workers mey give to the liquor party en enormous advantage in the preparation of the votere' liste. It must be remembered that no pereon, however fully quelified, will be permitted to voto if his neme is omitted from the voters' ilat.

The result of many a voting is decided in the preparetion of the lists. That work is helag done at the present time. Earnestly we urge upon all temperance workers to give their attention to this most important matter. Whatever other campaign work is teken up or deferred, this must not he neglected. A small intelligent committee ought to look after the voters' lists in every municipality in the Province of Ontario.
