

SPRING OPENING 1911

There is More Pleasure
Buying Clothing in the Spring
Than at Any Other Season.

Why? Because after a long winter it's a relief to throw off the heavy garments and put on lighter weights and, like nature, burst forth in all the abandon of unfettered freedom. Possibly we may have a few blustery days yet, but not sufficient to dampen the ardor nor stop the buying and preparing for spring — This is our first spring season in our new store and we have prepared a showing of garments for Men, Youths, Boys and Children that have no equal for Beauty and Values anywhere.

Situated as we are on the most prominent corner of the business thoroughfare, we are daily in touch with the best trade of Toronto and also the traveling public, which enables us to handle merchandise superior in every way to that handled by the ordinary merchant. We devote our time exclusively to clothes making and selling and are therefore experts in our line. The quotation of prices tells nothing, but a look will convince you in a few minutes. So please take THAT LOOK.

All Sensible People Will Buy Our Spring Clothing.
