Enjoy Life at Lakeland Highlands FLORIDA

BY OWNING A HOME and Grapefruit farm among the sunny hills and sparkling lakes of Polk County, the land of perpetual summer.

Small Cost
A 10-ACRE GRAPEFRUIT grove planted with 400 two-year-old trees on five-year roots costs only \$450, payable \$50 cash and the balance in quarterly payments, over a period of four years.

Large Profits
A CONSERVATIVE estimate, beginning after the fifth year, is \$5 per tree, or practically 5 per cent. on a valuation of \$100,000; many groves may more than double this amount; one man received a cheque for \$10,000 from a grove he owned \$850 from 319 trees, and one ten-acre grove paid \$13,487 in 1918, and \$16,675 in 1919. The average of these groves at our office.

Perpetual Scientific Care
THE LAKELAND HIGHLANDS Co-operative Association, Ltd., is a company organized and incorporated for fifty years, with, if you desire, care for your grove as actual owner. No experience or attention is not required, and experience is unnecessary.

An Invitation
COME TO Lakeland Highlands with me on my winter holiday, to enjoy the beauty of our beautiful Country Club as our guest; be just as curious as you like, as sketched as you like, from Mr. Meaurio, and I don't believe the king's horses will be able to drag you away to stay. If you have that "Florida feeling," then I want you to know that I am your friend and want to help you over your growing grove. The envy of your friends—without one thought of the morrow; safe in the assurance of an abundant income.
