Mr. Downey termed the matter an important one to the poor people of Ontario, in view of the astounding revelations that had attended the winding up of the York Loan Co. "Is it true that the inspector of loan corporations was closely connected with the management of the York Lean in family matters, and that one of his sons was connected with the company, and another a solicitor for the company? asked the speaker. Mr. Gamey spoke up and said that one son had acted as bondsman for the manager, "the man charged with fraud."

Mr. Downey was glad that the at-

ger, "the man charged with fraud."

Mr. Downey was glad that the attorney-general had promised that these questions would be looked into.

It had been said that the legislation of 1903 had had somewhat to do with the failure of the company, since it had made calls on the treasury Junking it necessary to pay back lapses.

Mr. Downey refuted this. No money was payable under it for four years from Sept-1, 1903, or until Sept. 1, 1907, so that none of the terminating shareholders received a cent. It was all a fiction and a fallacy.

Convincing Proof That Cure Was Permanent-in Five Years the Patient Has Had no Relapse-Facts in a Remarkable Case Substantiated by Sworn Statements.

"I had the grip for four winters, and as a result my nerves broke down. I lost the entire use of the lower half of my body. My stomach, liver, kidneys, heart and head were never affected, but the paralyzed condition of the lower part of the body affected my bladder and bowels. For a whole year I lay in bed perfectly helpless, with no power in either limb and the feeling gone, so that I couldn't feel a pin run into my legs at all. I couldn't turn over in bed without help. To move me a pulley was rigged up on the ceiling and a windlass on the floor. "During two years of my affliction.

"During two years of my affliction I had six different doctors, but none of them gave me any relief. A specialist months, but he was of no benefit to me. These doctors gave me up and said it was only a question of a few weeks with me. as nothing more could be done, a frend sent me a pamphlet containing statements of two men who had been afflicted something like me and who had been cured by the use of Dr. Williams' Pink Pills. I began taking them at once, and although my improvement was slow it was certain, without a cane, and everybody around here thinks it is a miracle that I can get about as I do. Your pills have certainly been a Godsend to me, Within the last three years I have answered had heard of my case and who asked me if it was true that I had been cured by Dr. Williams' Pink Pills. I have told them all that this remedy cured me and I am glad of this opportunity of telling about my case so that others may find relief as I have done.

Dr, Williams' Pink Pills are not a patent medicine, but the prescription of a physician, placed on sale with full directions for use under a trade mark that is a guarantee of their genuineness to every purchaser. They contain no stimulant, opiate or narcotic, and while they have cured thousands have never injured anybody. To show that cures effected by this remedy are really permanent and lasting, we recently investigated the case of Mr. Frank A. Means of Reedsville, Mifflin County, Pa. Mr. Means has been an elder in the Reeiss ville Presbyterian Church for many years, has served three years as county commissioner and as school director for nine years. He was afflicted with creeping paralysis, losing the entire use of the lower half of his body, and for a year was a helpless invalid, confined to his bed with no power or feeling in either leg, and physicians had given him up as hopeless. Mr. Means was his bed with no power or feeling in him up as hopeless. Mr. Means was cured by Dr. Williams' Pink Pills, and his testimony was printed five years as a result my nerves broke down by body.
