She Sues the Executors.

The widow of the late Thomas Clark is suing the executors, Charles Beliamy and Robert Rosebrugh, for \$1450, with interest on account, and judgment for \$5000, which she alleges was invested by her husband for her benefit; also wishing new executors appointed. The executors deny liability, stating that the investment was made through the late Crown Attorney Badgerow. The case is before Justice Street in the Non-Jury Court.

The first and only communication beyond coutine was considerably beyond. It was subscribed, "Yours in T., B. and C., John Binns, 1275 West 15th-street, Chicago." It read thus: Mr. H. J. Hill:

Sir,—An opportunity of interest is open to your association this season, as the Armour Cadets of Chicago are about to to your association this season, as the Armour Cadets of Chicago are about to visit Toronto in response to an invitation to them given by the Toronto Cadets, recently here, on which occasion the Armour Cadets of this city, under Capt. McCreery, were their escorts all the day, by invitation of the Sons of Canada of this city, which society entertained the cadets at a banquet and dinner during the day, under the presidency of Dr. D. M. Gallie, D.D.S., of this society. Now, sir, why not time their visit for your annual Exposition? The demeanor of the Toronto boys won their great and universal praise. The kindly and fraternal feeling between these two corps must be food for congratulation between these two peoples. We shall be glad to see the young men of the U.S. and Canada so fraternal and kindly. I do think that your committee should arrange their visit as a part of the Exposition attractions, as it might be also the means of drawing others to the Exposition. I do trust you will take this into consideration.

I hope, also, to see this year the beginning of the James Bay & Toronto Railway, a much-needed work of Provincial importance.

I hope, also, to see the 100th Regiment repatriated as a true Canadian regiment. I hope also to see a British regiment stationed in Vancouver. This is needed by reason of the fact that they would be handy for the East in case of need.

Yours in L., B. and C.,

John Binns.

It appears, therefore, that the Chicagoans are in a retaliatory mood. The Armour Cadets, like Armour beef, will be thankfully received. But on whose authority were they invited? The directors will take the matter in hand.
